#### **CCHS & TBHS GRADUATION REQUIREMENTS**

Full-time student status: Wyoming High School Activities Association (WHSAA) criteria requires five (5) classes per semester.

Graduation Requirements for 2024–2025 and following years

•	duation Requirements for 2024–2025 and following years				
Department	Credit	Must Include:			
ENGLISH	4 Credits	<ul> <li>1 credit each of Freshman, Sophomore, and Junior English AND</li> <li>1 credit of Senior English to include         <ul> <li>½ credit of Senior English Speech</li> <li>AND ½ credit of Senior English</li> <li>Literature OR</li> <li>College English 1010 AND</li> <li>Communications 2010: Intro to</li> <li>Public Speaking OR</li> <li>AP English Literature and Composition</li> </ul> </li> </ul>			
MATH	3 Credits	1 credit of Algebra I			
SCIENCE	3 Credits	1 credit of Biology I			
SOCIAL STUDIES	3 Credits	<ul> <li>1 credit of World Cultures OR World History</li> <li>1 credit of U.S. History</li> <li>½ credit of Economics</li> <li>½ credit of American Government</li> </ul>			
PHYSICAL EDUCATION	2 Credits	½ credit of Health Literacy			
ELECTIVES	9 Credits				
TOTAL	24 Credits				

#### Community Project (Early Release) Policy

#### Qualifications:

- Seniors only
- Must be on track for graduation (21 credits minimum at beginning of school year and 24 credits minimum at semester)
- Must maintain a 3.0 cumulative GPA

#### AND

- One (1) of the following:
  - Minimum score of a 21 Composite on the ACT Test

OR

- Score proficient in two of these three subject areas on the ACT Test
  - Reading 16 / Math 17 / Science 20

\*\*\* Community Project will be recalculated periodically and can be earned or forfeited at administrator's discretion.

#### **Teacher Assistant**

- Eligibility to be determined by administrators at each school.
- One (1) Teacher Assistant class per semester
- No more than one credit for Teacher Assistant can be accrued.

#### AP Classes - Advanced Placement

AP classes are the most demanding courses offered at the high school. Students earn high school credit and prepare for the AP test given in that subject area. AP tests are subject-specific national exams given in May. The AP test scored on a five (5) point scale; scoring 3, 4 or 5 may possibly earn college credit, determined by the university the student attends. AP exam fees are the responsibility of the student.

#### **AP Classes**

- AP Biology
- AP Physics
- AP Chemistry
- AP Spanish Language and Culture
- AP Spanish Literature and Culture
- AP German Language and Culture
- AP English Language and Composition
- AP English Literature and Composition

- AP Macroeconomics (only @TBHS)
- AP Government and Politics (only @ CCHS)
- AP Human Geography
- AP World History
- AP Art Portfolio: Drawing
- AP Art Portfolio: 2-D Art
- AP Art Portfolio: 3-D Art
- AP Calculus AB and BC

<sup>\*\*</sup>AP Exam orders take place in the fall with a final deadline for ordering in November\*\*

#### **Graduation Recognition Levels**

#### Valedictorian:

- 4.0 GPA (class rank GPA scale)
- Two (2) AP courses

#### Salutatorian:

- Minimum 3.9 GPA (class rank GPA scale)
- One (1) AP course

#### **Graduation with Honors:**

• Minimum 3.75 GPA (cumulative GPA scale)

#### **Grade Scales**

The grade conversion chart below will be used for conversion of grades from percentage to letter grades, class rank GPA, and cumulative GPA. Class rank GPA will be determined according to the conversion chart. Only students progressing toward a regular diploma will be included in class rank. Class rank GPA will ONLY be used to report class rank and to make determinations for valedictorian/salutatorian honors. Cumulative GPA will be determined according to the conversion chart. This GPA is considered the student's official GPA and will be reported on student transcripts.

Percent Score	Letter Grade	Class Rank GPA*	Hathaway GPA***
98-100	A+	4.000	5.0
93-97	Α	4.000	5.0
90-92	A-	3.666	5.0
88-89	B+	3.333	4.0
83-87	В	3.000	4.0
80-82	B-	2.666	4.0
78-79	C+	2.333	3.0
73-77	С	2.000	3.0
70-72	C-	1.666	3.0
68-69	D+	1.333	2.0
63-67	D	1.000	2.0
60-62	D-	0.666	2.0
59 & Below	F	0.000	0.0

<sup>\*</sup>Class rank GPA is used ONLY for determining Valedictorians and Salutatorians.

<sup>\*\*\*</sup> The Hathaway GPA will be based on a scale from 0 to 5.0. All courses taken will be included in the GPA calculation; however, only AP, IB, and Dual/Concurrent college courses 1000-level and above will be weighted. College courses below the 1000-level will not be weighted.

# HATHAWAY GPA QUICK FACTS

Changes have been made to the way high school GPAs are calculated for the Hathaway Scholarship. In accordance with **Senate Enrolled Act 0056**, the Wyoming Department of Education (WDE) established a **grade-weighting policy** that accounts for the increased academic rigor of certain high school courses.

All districts will be required to use the weighted Hathaway GPA starting in the 2018-19 school year. All AP, IB, and Dual/Concurrent 1000-level and above courses will be weighted.

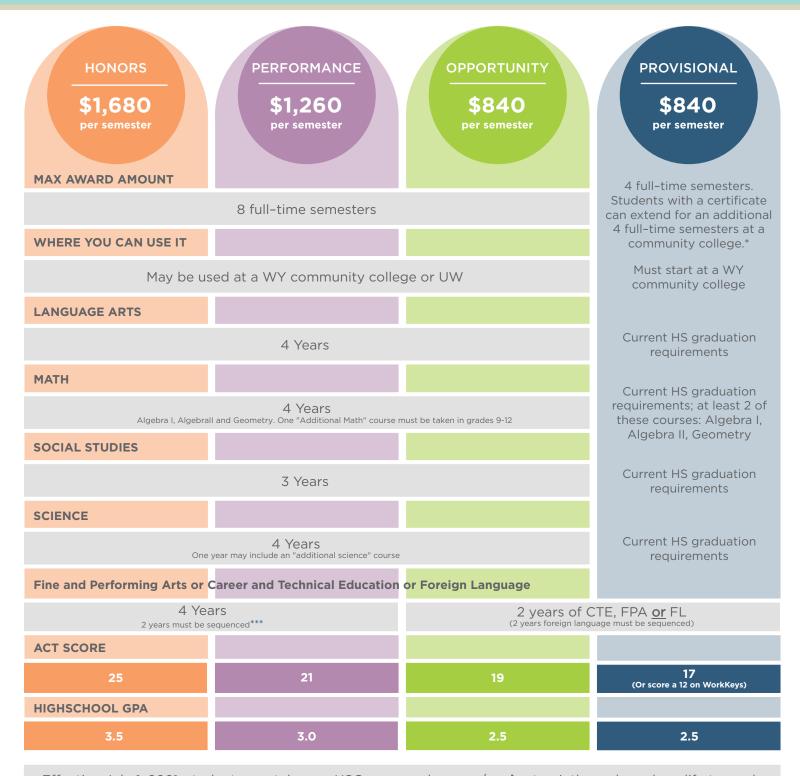

#### **QUICK FACTS**

- The Hathaway GPA will be based on a scale from 0 to 5.0. All courses taken will be included in the GPA calculation; however, only AP, IB, and Dual/Concurrent college courses 1000-level and above will be weighted. College courses below the 1000-level will not be weighted.
- All Hathaway courses must be approved by the WDE's Hathaway Team. Additionally, AP courses must be approved by the College Board, and IB courses must be approved by the International Baccalaureate program.
- Starting in the 2018-19 school year, all student transcripts must include the weighted Hathaway GPA.
- The weighted GPA does not apply to any students who graduate before the 2018-19 school vear.
- Beginning in the 2018-19 school year, all AP, IB, and Dual/Concurrent Enrollment courses students are taking or have previously taken will be weighted.
- Students do not have to take an AP test in order to receive a weighted grade.
- Students taking Dual/Concurrent Enrollment courses do not need to receive college credit from those courses in order to receive a weighted grade.
- The Chapter 38 Rules have not yet been updated the **Rules Promulgation Procedure** requires all new rules to be open for public comment before full implementation.

# Hathaway Scholarship Requirements

Effective July 1, 2021, students can take any HSC approved course/s **prior** to ninth grade and qualify towards the Hathaway Success Curriculum

- \* Students who earn an associate's degree can extend for an additional 4 full-time semesters at UW.
- \*\* All AP, IB and dual/concurrent courses (+1000 level and above) will be weighted.
- \*\*\* Two of the four years must be sequenced. Sequenced courses follow the same CTE career cluster OR CTE program of study.

#### Gillette College Concurrent Enrollment Program

Gillette College, in partnership with Campbell County School District (CCSD), offers courses through Campbell County High School (CCHS) and Thunder Basin High School (TBHS), which provides both high school and college credit. Concurrent Enrollment courses are taught at CCHS or TBHS by their instructors, who have been approved as Adjunct Faculty by Gillette College.

Students are eligible to take concurrent enrollment courses during their junior or senior year or with permission from a high school official. Prospective students are responsible for the completion of all required documents. This includes the Gillette College Admissions application, course registration form, including an application for admission, course registration form, and successful completion of ACT or Accuplacer testing requirements. Testing scores are required for College English1010, Math 1400, Pre-Calculus, and Math 2200 Calculus.

Please see the table below for the testing requirements.

Concurrent enrollment courses are free to students; tuition and fees are paid through an agreement between CCSD and Gillette College. Students may be asked to purchase books or materials before the start of the class.

Students will receive college credit after successful completion of the class with a grade of C or better. Classes are designated as transfer courses to local area colleges in Wyoming, Montana, Nebraska, and South Dakota, however, this does not include vocational courses. For specific transfer questions, please contact your anticipated college destination. Vocational courses will receive Gillette credit only as they are part of a specific degree program.

This listing of courses represents the anticipated offerings for the 2023-2024 school year.

Co	ncurrent Enrollment Classes	
CCHS / TBHS Course	Gillette College Course	Credit Hours

MATH 1400	ACT Math 23 or higher	ΩR	Accuplacer AAF 240 or higher	

MATH 2200 ACT Math 27 or higher OR Completion of MATH 1400 & MATH 1405

#### \*SCORES MUST BE OBTAINED BY FIRST DAY OF CLASSES

#### Pronghorn Advantage Scholarship Program

Pronghorn Advantage are programs offered to qualified juniors and seniors at Campbell County and Thunder Basin High Schools. These programs give you a chance to experience actual college classes and college life before graduating from high school. Participating students enroll in college courses taken at Gillette College and attend classes at the college during the school day or in the evenings. On-line courses offered through the college also qualify. Students who qualify receive a scholarship that pays full tuition and fees for all coursework taken as long as you maintain satisfactory grades.

All Pronghorn Advantage students attend classes just like all other college students. Organizing time, getting to class, developing responsibility to deal with various requirements, and actually functioning in college will be a great transition to and preparation for college enrollment following high school graduation. Successful students will receive college grades on a college transcript, and fully transferable college credits.

Two kinds of courses are available through this program. Transfer courses, those that are designed to transfer into a Baccalaureate Degree at a community college or university; like English, math, psychology, government, economics, etc., are available and fulfill nearly all college general education requirements. In addition, advanced career-technical education courses (CTE) are available to student who have completed the basic curriculum at the high school (welding, diesel, etc.) Think of the advantage you'll have when you finally enroll in college as a full-time student. College classes and expectations will be nothing new to you. You will have already successfully participated in a transition to college course work and you will be ready to face college life with ease.

The high school will release Pronghorn Advantage students from high-school classes on a case-by-case basis as needed. First-time enrollees are limited to six credits at the college or generally two classes. After one successful semester, a student may take up to 16 credits (full-time college status) at the college. All courses taken via the Pronghorn Advantage program are taken for credit at both the high school and the college.

Daytime classes at the college tend to fill quickly once registration opens so don't delay. If you plan to take advantage of this program, try to sign up and register early in order to have the best choice and flexibility in choosing classes.

#### **Requirements for Participation:**

- Juniors & Seniors
- Accuplacer scores may be required for some courses
- Approval of high school counselor and Director of BOCHES
- CTE Courses:
  - Student must have completed basic courses in the CTE program at the high school

#### How do I sign up?

Speak with your counselor and let them know you're interested and to receive the dual enrollment packet. Follow the steps outlined in the packet, including meeting with the Director of BOCHES and a college representative. For questions contact the Gillette College enrollment office at 307-681-6003.

#### Will the college credits transfer?

The credits taken at Gillette College will transfer to most major colleges and universities in the country, this is determined by the college or university you will be attending.

#### What does this cost?

All tuition and fees for the courses will be paid through a scholarship by BOCHES (Board of Cooperative Higher Education Services). Students are responsible for books and all course materials required.

#### What courses can I take at the college?

Any non-remedial college-level course 1000 level or above with approval by the CCHS / TBHS Principal qualifies.

#### When can I begin this program?

Students who qualify may begin the program in the summer semester prior to their junior year in high school or any time after.

#### Can I use the Pronghorn Advantage program for summer college classes? Yes, as long as you are at least a junior and have not yet graduated from high school.

#### Would I be a college or high school student?

Both. Students are treated just as all other college students when in class at the college and just like all other high school students when at class in the high school. Students who enroll in the courses will receive the same grade for the course at BOTH the high school and the college.

#### Is transportation provided?

No. You are responsible to get to and from your college classes.

#### Does the scholarship cover book costs?

No, the Pronghorn Advantage scholarship only covers the cost of tuition and fees. Students who participate in the program are responsible for book and material costs for courses.

# WHSAA and Transferring to a New School

The purpose of the Transfer Rule (Rule 6.4.0 thru Rule 6.4.93) is to protect, not inhibit students who participate in athletic competition. The Transfer Rule is preventative in nature and is devised to eliminate the incentive to transfer schools when a motivation is for athletic purposes and after a student has initially chosen the school of his/her choice. The Transfer Rule protects students who have previously participated in athletic competition at a member school from being replaced by students who transfer for athletic purposes and further protects students at other member schools from the affects of "school shopping" by students (Rule 4.1.2) and "recruiting" by member schools and their agents (Rule 4.1.1 and Rule 4.1.2). The Transfer Rule encourages fair play, discourages the excesses and abuses of over enthusiastic promotion and protects the integrity of interscholastic athletic programs for the member schools and their students. The eligibility of a transfer student must be established by school records or verification from the sending school. The responsibility for establishing eligibility rests with the receiving school. A student's residence is the home in which the parent(s) or legal guardian actually, physically live. Residence can be changed only by the union of "act and intent." The residence of a person is where his habitation is fixed and to which, whenever he is absent, he has the intention of returning. A change of residence can only be made by the act of removal joined with the intent to remain in another place. There can be only one residence. The only legal guardianship that is recognized by the WHSAA for transfer rule purposes is that legal guardianship which has been established at least 12 months prior to the student's moving to a new school and the fact that the student has been living with that legal guardian in their previous school setting.

#### WYOMING HIGH SCHOOL ACTIVITIES ASSOCIATION

# 6571 East 2nd Street Casper, Wyoming 82609 2024-2025 GENERAL RULES OF ELIGIBILITY

These rules are WHSAA minimum requirements. WHSAA member schools may establish additional rules. For a complete copy of these rules, please see your principal or activities director.

#### A STUDENT

- 1. \* Must have passed in at least five solid subjects in the immediate preceding semester and must be passing five solid subjects in the current semester. Special education students must meet IEP goals set for them.
- 2. Must be under twenty years of age on August 1 for fall sports, November 1 for winter sports, and March 1 for Spring sports.
- 3. Must have been in residence at the school he or she is representing for one year from date of enrollment unless
  - a. Entering ninth grade for the first time.
  - Transferring into a school due to a move on the part of parent or legal guardian of twelve months.
  - c. Assigned to a foster home by court order.
  - d. Transferring from a school which has been discontinued or consolidated.
  - e. Student did not compete in the same activity which is being participated in at varsity level at new school during twelve months prior to enrollment at new high school.
- 4. Must not have changed schools due to influence by any person(s) or promises of preferential treatment.
- 5. \* Must not have been in attendance for more than four fall or four spring semesters, for a total of eight semesters, which will be counted consecutively after the student enters the ninth grade.
- 6. Must have had a physical examination prior to first practice, but not before May 1 of this year.
- 7. Must have practiced for the required number of days dependent upon the sport. (Check with Principal)
- 8. \* Must not participate with an independent team while a member of high school competing squad in the same sport or activity.
- 9. Must not have received any awards with a value greater than \$250 or any cash as the result of athletic involvement.
- 10. \* Must be currently enrolled in the school student is competing with and be in good standing.
- 11. Must be an amateur one who has never used and is not now using athletic skill for monetary gain.
- 12. Must not have participated in athletics with any college or university group.
- \* Fine Arts & Vocational participants need only meet these requirements.

\*\*\*\*\*\*\*\*\*\*

### SCHOOLS, REMEMBER...

- 1. To get physicals on athletes before they participate in practice or contest.
- 2. To check the number of practice days for each participant.
- 3. To have on file in school OFFICE (before competition) a master eligibility list of all students participating in interscholastic activities and the eligibility rules pamphlet sign-off for each participant.
- 4. To submit transfer form for pupils transferring into your school.
- 5. To hire only WSOA registered officials

### **High School Student Checklist**

Complete this checklist to get in the game! Find more information at www.playnaia.org/freshmen

**Register** and submit a complete profile at **PlayNAIA.org** as early as your junior year. You might qualify for an early decision if you have an elevated GPA, check our website for more information..

Make sure to **opt-in to texting** for up-to-date alerts.

2

**Ask Your Counselor to Send Your High School Transcript** through their 'High School Portal' for same-day delivery.
For other delivery methods, visit our website.

**Request Your ACT or SAT Score** to be sent directly from the testing agency using our code, **9876.** Test scores cannot be taken from your high school transcript.

**Log Into Your To Do List Regularly** for updates. Your final status will be posted on your profile 3-5 business days after all required records are received.

**If You Have Questions** email us at ECInfo@naia.org or call (816) 595-8300. We're here to help you!

## Meet Two of These Requirements

- Minimum high school GPA of a 2.0 or higher.
- **2.** Minimum ACT or SAT score.
- **3.** Graduate in the top half of your high school class.

Requirements differ for students with a GED, home schooling, and/or who took time off after high school graduation (excluding summer).

Learn more at www.PlayNAIA.org/Eligibility-Center

# Registration Checklist

Want to compete in NCAA sports? Register with the Eligibility Center at eligibilitycenter.org before the ninth grade (year nine of secondary school).

#### Which account type is right for you?

- Profile Page Account: If you're a younger student or are not being recruited, are unsure in which division you want to compete, or are a domestic student who plans to compete at a Division III school, register for a free Profile Page account. Transition your account to a certification account once you start being actively recruited by an NCAA school.
- 2. Academic and Amateurism Certification Account:
  You must receive academic and amateurism
  certifications from the Eligibility Center to compete at a
  Division I or II school. You must complete the Academic
  and Amateurism Certification account registration
  (including payment or fee waiver) before you go on
  Division I official visits, sign an NLI, receive an athletics
  scholarship or compete at a Division I or II school.
- 3. Amateurism-Only Certification Account:

  If you're an international student-athlete (firstyear enrollees and transfers) enrolling at a Division III
  school, you must register with an Amateurism-Only
  Certification account (or use an existing Academic and
  Amateurism Certification account, if you already have
  one) and receive your final amateurism certification
  before you can compete.

This account may also be right for students transferring from a non-NCAA college or university to a Division I or II school who do not require an Eligibility Center academic certification. These students should check with the compliance office at the NCAA school they may attend to determine their required account type.

ELIGIBILITY CENTER ACCOUNT TYPES			
In which division do you plan to compete?	Profile Page* Account	Academic and Amateurism Certification Account	Amateurism-Only Certification Account
Division I or II			
Before recruiting begins or middle school and younger students (domestic or international). Can be transitioned to the right certification account when needed.	<b>/</b>		
High school student (domestic or international) enrolling for the first time at an NCAA school.		<b>/</b>	
Transferring from a two- or four-year college or university. (Check with the compliance office at the school you may attend.)		<b>✓</b> 0	PR 🗸
Division III			
Domestic high school student enrolling for the first time at a Division III school.	<b>✓</b>		
High school student with a permanent residence outside of the U.S.			<b>✓</b>
High school student who attended secondary or postsecondary school outside of the U.S. for any time (excluding U.Sbased students who study abroad).			<b>✓</b>
nternational high school student enrolling for the first time at a Division III school.			<b>✓</b>
High school student who was based and competed outside of the U.S. or participated on a sports team who was based and competed outside of the U.S.			<b>✓</b>
Fransferring from a two- or four-year college or university; attended domestic high school(s) only.	<b>✓</b>		
Transferring from a two- or four-year college or university; attended at least one nternational high school. (U.S. territories are considered domestic.)			<b>✓</b>
Division Undecided/Unknown			
Never enrolled full time at a two- or four-year college or university. Best before recruiting begins or for middle school and younger students. Can be transitioned to the right certification account when needed.	<b>✓</b>		

Once you have determined the right account for you, visit eligibilitycenter.org to register. A list of information you will need to complete your account is outlined below. For a Profile Page account, allow 15 minutes to complete. For certification accounts, allow between 30 and 45 minutes to complete. If you need to exit and come back at a later time, you can save and exit once your account is created.

\*Unsure which account type is right for you? Start with our free Profile Page account, then check with the compliance office at the NCAA school you may attend. If you need assistance, contact the Eligibility Center's customer service team at 877-262-1492, Monday-Friday from 9 a.m. to 5 p.m. Eastern time. International students (including Quebec) should use the International Contact Form to submit questions.

#### **ELIGIBILITY CENTER REGISTRATION ESSENTIALS**

Below are some items you should have with you when creating an account at eligibilitycenter.org:

# ☐ Valid Email To register, you

To register, you need a valid email address that you check regularly and will have access to *after* high school. The Eligibility Center uses email to update you about your account throughout the process. *Note:* If you have a sibling who previously registered, you will need to use a different email address than the one in your sibling's account.

#### **Basic Student Personal Information**

This includes information such as your name, gender, date of birth, primary and secondary contact information, address and mobile number.

#### ☐ Basic Student Education History

When registering, you will be required to provide details about all secondary and high schools and additional programs you attended in the U.S. and internationally. All schools, regardless of whether you received grades or credits must be included. If you attended ninth grade at a junior high school located in the same school system in which you later attended high school, the ninth-grade school should not be listed.

#### Student Sports Participation History

Select each sport you plan to participate in at an NCAA school. For certification accounts, you will be required to provide details on any expenses or awards you received, any teams you have

practiced or played with or certain events in which you participated. You will also list any individuals who have advised you or marketed your skills in a particular sport. This information helps the Eligibility Center certify your amateur status once you request your final amateurism certification.

#### Payment (Certification Accounts Only)

Registration for a certification account is complete only after your registration fee is paid (or upon requesting a fee waiver, if eligible). You may pay online by debit, credit card or echeck. For an Academic and Amateurism Certification account, the fee for college-bound student-athletes attending a high school in the U.S., U.S. territories or Canada is \$100; the fee for international students is \$160. For students for which an Amateurism-Only Certification account is the right choice, the fee for all students is \$70. Profile Page accounts do not have a fee.

All fees are nonrefundable 30 days after the certification account fee is paid. If you completed a duplicate registration and paid your registration fee twice, you may be eligible for a refund. To receive a refund, you will need to complete and submit an NCAA refund form.

#### Unsure if you've already created an account?

Contact customer service at 877-262-1492, Monday-Friday from 9 a.m. to 5 p.m. Eastern time, before creating a new account to avoid duplicate account issues during recruiting.

# Initial-Eligibility Standards

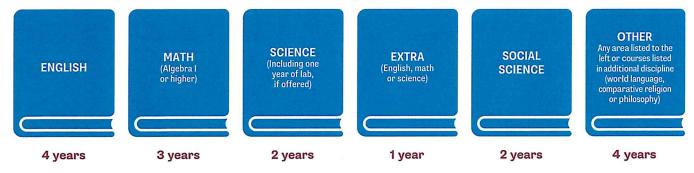

If you want to compete in NCAA sports, you need to register with the NCAA Eligibility Center at **eligibilitycenter.org**. Plan to register before your freshman year of high school. For more information on registration, visit **on.ncaa.com/RegChecklist**.

#### **Academic Requirements**

**Division I and II** schools require you to meet academic standards. To be eligible to practice, compete and receive an athletics scholarship in your first year of full-time enrollment, you must meet the following requirements:

#### **Division I**

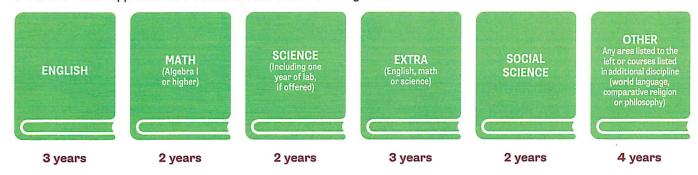

1. Earn 16 NCAA-approved core-course credits in the following areas:

- 2. Complete your 16 NCAA-approved core-course credits in eight academic semesters or four consecutive academic years from the start of ninth grade. If you graduate from high school early, you still must meet core-course requirements.
- 3. Complete 10 of your 16 NCAA-approved core-course credits, including seven in English, math or science, before the start of your seventh semester. Once you begin your seventh semester, any course needed to meet the 10/7 requirement cannot be replaced or repeated.
- 4. Earn a minimum 2.3 core-course GPA.
- 5. Ask your high school counselor to upload your final official transcript with proof of graduation to your Eligibility Center account.

#### **Division II**

1. Earn 16 NCAA-approved core-course credits in the following areas:

- 2. Earn a minimum 2.2 core-course GPA.
- 3. Ask your high school counselor to upload your **final official transcript** with proof of graduation to your Eligibility Center account.

#### **Division III**

While Division III schools set their own admissions and academic requirements, international student-athletes (first-year enrollees and transfers) who are enrolling at a Division III school after Aug. 1, 2023, must be certified as an amateur by the Eligibility Center. Contact the Division III school you plan to attend for more information about its academic requirements.

# **Course Code Descriptions**

Each course within the course guide is labeled with a code that identifies the level of rigor for that course. The majority of courses are taught at a level of rigor appropriate for that grade level and are marked G for General. Some courses are designed to focus on basic skill development in order to prepare a student for a general course and are marked B for Basic. By contrast, some courses are designed with a higher level of rigor and are marked E for Enriched. Enriched courses challenge students with a fast paced curriculum and greater depth of study in the respective content area. Advanced Placement (AP) courses fall within this category. In addition, courses designated with a C are college level courses designed to earn credit at a postsecondary institution. While AP courses provide the opportunity for college credit as well, earned credit depends upon AP exam scores and the policy of the accrediting institution. All courses, regardless of level, are aligned to adopted Wyoming content standards.

- **B** Basic: This course focuses primarily on skills development, including literacy in language, mathematics, and the physical and social sciences. These courses are typically less rigorous than standard courses and are intended to prepare a student for a general course.
- **G** General: This course provides instruction that focuses primarily on general concepts appropriate for the grade level. General courses meet the state and district expectations of scope and difficulty for mastery of the content.
- **E** Enriched: This course augments the content and rigor of a general course. The students will be challenged with a fast paced curriculum that deeply studies the topics within the discipline. AP courses within this designation provide opportunity for college credit based on an end of course exam.
- **C** College: This course is designed to be credit bearing at a postsecondary institution.

# Language Arts

All students must successfully complete 4 years of English in grades 9 through 12 as part of basic graduation requirements.

#### Hathaway requirement: (Please reference page 5)

#### Language Arts

#### Course Name: Freshman English

	<b>9</b>			
Course Number	401901	401902		
Credit Type	English			
Grade Level	9			
Credit	½ credit per semester			
Course Length	Year Long Course			
Fee	None			
Course Level	General			
Meets Hathaway	Freshman English			
Success Curriculum				
Prerequisite	None			

Freshman English builds upon students' prior knowledge of grammar, vocabulary, word usage, and the mechanics of writing and includes the four aspects of language use: reading, writing, speaking, and listening. This course will introduce and define various genres of literature, with writing assessments often linked to reading selections.

#### Course Name: Enriched Freshman English

Course Number	402911 40291				
Credit Type	English				
Grade Level	9				
Credit	½ credit per semester				
Course Length	Year Long Course				
Fee	None				
Course Level	Enriched				
Meets Hathaway	Enriched Freshman				
Success Curriculum	English				
Prerequisite	None				

Enriched Freshman English builds upon students' prior knowledge of grammar, vocabulary, word usage, and the mechanics of writing and includes the four aspects of language use: reading, writing, speaking, and listening. This course will introduce and define various genres of literature, with writing assessments often linked to reading selections. Enriched Freshman English, in addition to studying various supplemental texts, will approach the curriculum with a greater depth and level of rigor. This course is designed for the student who seeks a rich and challenging experience in the English Language Arts.

#### Course Name: Sophomore English

Course Number	413401	413402		
Credit Type	English			
Grade Level	10			
Credit	½ credit per semester			
Course Length	Year Long Course			
Fee	None			
Course Level	General			
Meets Hathaway	Sophomore English			
Success Curriculum				
Prerequisite	None			

Sophomore English is intended to develop skills in reading, writing, speaking, listening, and grammar. Students will read a variety of genres including short story, novel, poetry, drama and nonfiction. Students will utilize reading strategies to improve comprehension at literal, interpretive, and applied levels. Students will focus on analytical writing, persuasive research composition, persuasive speaking, and writing process strategies.

#### Course Name: Enriched Sophomore English

			<i>p</i> 00. 0	
Course Number	40132	21	401322	
Credit Type	English			
Grade Level	10			
Credit	½ credit per semester			
Course Length	Year Long Course			
Fee	None			
Course Level	Enriched			
Meets Hathaway	Enriched Sophomore			
Success Curriculum	English			
Prerequisite	None			

Enriched Sophomore English is a yearlong course designed to improve students' reading, writing, speaking, listening, and thinking skills through an integrated approach to literacy development. Students will read novels, dramas, poetry, short stories, and nonfiction. Students will also develop multiple writing skills and strategies with analytical writing and persuasive research composition. This is an enriched class focusing on college preparation and advanced placement.

#### Course Name: Junior English

	_			
Course Number	423501	423501 423502		
Credit Type	English			
Grade Level		11		
Credit	½ credit per semester			
Course Length	Year Long Course			
Fee	None			
Course Level	General			
Meets Hathaway	Junior English			
Success Curriculum				
Prerequisite	None			

Junior English covers American Literature in a holistic frame of thought. Included are studies of the essay, short story, poem, drama, novel, and historical nonfiction; discussion and writing are the prime focus. Teachers challenge students to think, speak, read, and write on the literal, interpretive, and evaluative levels. Presented chronologically, the course covers American literature beginning with the 1600's and ending in contemporary literature. Students read novels for class and out of class. Writing assignments include literary analysis, persuasive modes, as well as research. In addition, students study vocabulary, grammar, and usage each semester and will engage in ongoing preparation for the ACT plus Writing exam.

#### Course Name: Enriched Junior English

Course Number	421551 421552		552	
Credit Type	English			
Grade Level		11		
Credit	½ credit per	semeste	er	
Course Length	Year Long Course			
Fee	None			
Course Level	Enriched			
Meets Hathaway	Enriched Junior English			
Success Curriculum				
Prerequisite	None			

Enriched Junior English covers American Literature in a holistic frame of thought. Students have the opportunity to study literature (the essay, short story, poem, drama, novel, and historical nonfiction) as a part of the humanities while teachers challenge them to think, discuss/speak, read, and write on the literal, interpretive, and evaluative levels. Presented chronologically, the course covers American literature beginning with the 1600's and ending in contemporary literature. In addition, students study vocabulary, grammar and usage each semester and will engage in ongoing preparation for the ACT plus Writing exam. Enriched Junior English is designed to challenge students in an environment filled with rigor and high expectations. Students will read additional texts, engage in deep discussion of literature from various literary approaches, and complete multiple academic writings designed to challenge and prepare participants for both college and career opportunities.

#### **Course Name: AP English Language and Composition**

course marrier m	Liigiisii	-4119	uugc	
Course Number	461641 461642			
Credit Type	English			
Grade Level		11		
Credit	½ credit per semester			
Course Length	Year Long Course			
Fee	Fee required for AP test			
Course Level	Enriched			
Meets Hathaway	AP English Language and			
Success Curriculum	Composition			
Prerequisite	None			

Following the College Board's suggested curriculum designed to parallel college-level English courses, AP English Language and Composition courses expose students to prose written in a variety of periods, disciplines, and rhetorical contexts. These courses emphasize the interaction of authorial purpose, intended audience, and the subject at hand, and through them, students learn to develop stylistic flexibility as they write compositions covering a variety of subjects that are intended for various purposes. Students are strongly encouraged to take the AP Exam. Successful performance on the test can lead to college credit depending on the score and the college or university of choice. College credit varies by post-secondary institution. Summer reading may be required. Students may be required to purchase texts.

#### Course Name: Senior Literature

Course Number	433600	
Credit Type	English	
Grade Level		12
Credit	½ credit	
Course Length	Semester Course	
Fee	None	
Course Level	General	
Meets Hathaway	Senior Literature	
Success Curriculum		
Prerequisite	None	

Senior Literature focuses on the study of various periods of literature within the British Canon. Each student will engage in the close reading and discussion of various works within at least three periods, including assigned works of poetry, drama, prose, and supporting informational texts. Authors may include, but are not limited to William Shakespeare, Geoffrey Chaucer, William Wordsworth, John Keats, George Orwell and T.S. Eliot. The ultimate goals for Senior Literature are for students to understand, interpret, and apply literature at personal and academic levels.

#### Course Name: Senior English

Course Number	434600	
Credit Type	English	
Grade Level		12
Credit	½ credit	
Course Length	Semester Course	
Fee	None	
Course Level	General	
Meets Hathaway	Senior Speech	
Success Curriculum		
Prerequisite	None	

This semester will focus on three areas: speech, self-exploration, and rhetorical critique. During this semester, students will be instructed in all aspects of formal public speaking in order to gain insight into the skill of oral communication. Various speeches will be written, discussed and performed in the course of the semester. Students will also complete all reading, writing, journaling or hands-on work necessary to ensure college and career readiness.

#### **Course Name: AP English Literature and Composition**

	9			
Course Number	405641 405642		642	
Credit Type	English			
Grade Level			12	
Credit	½ credit per semester			
Course Length	Year Long Course			
Fee	Fee required for AP test			
Course Level	Enriched			
Meets Hathaway	AP English Literature and			
Success Curriculum	Composition			
Prerequisite	None			
	1			

Following the College Board's suggested curriculum designed to parallel college-level English courses, AP English Literature and Composition courses enable students to develop critical standards for evaluating literature. Students will closely study various works of British and American literature; interpret and defend literary observations, both orally and in writing; and create a solid base understanding of classic literature. The course also includes intense preparation for each section of the AP English Literature and Composition exam. Students are strongly encouraged to take the AP Exam. Successful performance on the test can lead to college credit depending on the score and the college or university of choice. College credit varies by post-secondary institution. Summer reading may be required.

#### Course Name: College English 1010

Course Number	452620	English 1010 is designed to study, practice and master the art of
Credit Type	English	writing formal essays. Students will (1) write voraciously; (2)
Grade Level	12	express original thought on diverse topics; (3) bring drafts of essays to class for peer revision and editing; (4) participate in
Credit	½ credit	genuine and poignant discussion and feedback about writing
Course Length	Semester Course	efforts; (5) create multiple drafts of essays in pursuit of quality
Fee	College Textbook	work and (6) submit professional quality, academic essays. With
Course Level	College	consistent practice and participation, students will learn the skills necessary to practice the writing process as an individual
Meets Hathaway	College English 1010	endeavor and use standard, formal English.

The CCSD math departments are committed to the implementation of the CCSS Mathematical Practices, as outlined below. These practices define the culture of the CCSD math classrooms.

# MATH Standards for Mathematical Practice in Action

ractio	ce	Sample Student Evidence	Sample Teacher Action
1.	Make sense of problems and persevere in solving them.	*Display sense-making behaviors. *Show patience and listen to others. *Turn and talk for first steps or generate a solution plan. *Analyze information in problems. *Use and recall multiple strategies. *Self-evaluate and redirect. *Assess the reasonableness of process and answer.	*Provide open-ended problems.  *Ask probing questions.  *Probe student responses.  *Promote and value discourse.  *Promote collaboration.  *Model and accept multiple approaches.
2.	Reason abstractly and quantitatively.	*Represent abstract and contextual situations symbolically.  *Interpret problems logically in context.  *Estimate for reasonableness.  *Make connections, including real-life situations.  *Create and use multiple representations.  *Visualize problems.  *Put symbolic problems into context.	*Model context to symbol and symbol to context. *Create problems such as, "What word problem wil this equation solve. *Give real-world solutions. *Offer authentic performance tasks. *Place less emphasis on the answer. *Value invented strategies *Think aloud
3.	Construct viable arguments and critique the reasoning of others.	*Question others.  *Use examples and nonexamples.  *Support beliefs and challenges with mathematical evidence.  *Form logical arguments with conjectures and counterexamples.  *Use multiple representations for evidence.  *Listen and respond to others well.  *Use precise mathematical vocabulary.	*Create a safe and collaborative environment. *Model respectful disclosure behaviors. *Provide find-the-error problems. *Promote student-to-student discourse (do not mediate discussion). *Plan effective questions or Socratic formats. *Provide time and value discourse.
4.	Model with mathematics.	*Connect math (numbers and symbols) to real-life situations. *Symbolize real-world problems with math. *Make sense of mathematics. *Apply prior knowledge to solve problems. *Choose and apply representations, manipulatives, and other models to solve problems. *Use strategies to make problems simpler. *Use estimation and logic to check the reasonableness of an answer.	*Model reasoning skills, *Provide meaningful, real-world authentic, performance-based tasks. *Make appropriate tools available. *Model various modeling techniques. *Accept and value multiple approaches and representations.
5.	Use appropriate tools strategically.	*Choose appropriate tool(s) for a given problem. *Use technology to deepen understanding. *Identify and locate resources. *Defend mathematically the choice of a tool.	*Provide a toolbox at all times with all available tools; students then choose as needed. *Model tool use, especially technology for understanding.
6.	Attend to precision.	*Communicate (orally and in writing) with precise vocabulary.  *Carefully formulate questions and explanations (not retelling steps).  *Decode and interpret the meaning of symbols.  *Pay attention to units, labels, scale, and so forth.  *Calculate accurately and effectively.  *Express answers within context when appropriate.	*Model problem-solving strategies. *Give explicit and precise instructions. *Ask proving questions. *Use English language arts strategies of decoding comprehending, and text-to-self connections for interpreting symbolic and contextual math problem *Guided inquiry.
7.	Look for and make use of structure.	*Look for, identify, and interpret patterns and structures.  *Make connections to skills and strategies previously learned to solve new problems and tasks.  *Breakdown complex problems into simpler and more manageable chunks.  *Use multiple representations for quantities.  *View complicated quantities as both a single object and a composition of objects.	*Let students explore and explain patterns. *Use open-ended questioning. *Prompt students to make connections and choose problems that foster connections. *Ask for multiple interpretations of quantities.
8.	Look for and express regularity in repeated reasoning.	*Design and state shortcuts.  *Generate rules from repeated reasoning or practice (e.g., integer operations).  *Evaluate the reasonableness of intermediate steps.  *Make generalizations.	*Provide tasks that allow students to generalize *Don't teach steps for rules, but allow students to explore and generalize to discover and formalize. *Ask deliberate questions. *Create strategic and purposeful check-in-points.

ALL Students must pass Algebra I.

The CCSD Graduation requirement is that all students will successfully complete at least 3 (three) total years of mathematics between Grade 9 and Grade 12, which must include the completion of Algebra I.

Additionally, mathematics helps students strengthen their reasoning and problem-solving skills. It helps them think analytically and reason logically about the world around them. The same processes used to solve math problems can be applied to other areas as they learn, work, contribute, and thrive throughout life.

By selecting from a variety of content and high school course offerings ranging from basic to advanced, students will gain an appreciation for their interests, needs, and future plans. Each math course gives students the opportunity to think critically and creatively, communicate effectively, build knowledge and make decisions, demonstrate strong collaboration skills, and practice effective organization, management, and commitment.

Finally, the ACT and/or SAT test results are used by college admissions as a measurement and predictor of student success. The math portion of these exams specifically measure the student's preparation in the following areas: Number and Quantity, Algebra, Advanced Math, Geometry, Modeling, Statistics and Data Analysis, and Trigonometry.

#### **Mathematics Courses**

#### Course Name: Linear Algebra

Course Number	203	203301		302	
Credit Type	Math	Math			
Grade Level	9 10 11				
Credit	½ credit per semester				
Course Length	Year Long Course				
Fee	None				
Course Level	Basic				
Meets Hathaway	Linear Algebra				
Success Curriculum					
Prerequisite	None				

Linear Algebra is an intervention course for students that have been recommended by their teacher or have incomplete Pre-Algebra or Algebra I content knowledge. The course is designed to bridge the gap between Pre-Algebra and Algebra I by developing foundational skills for Linear (first-degree) equations and inequalities. Students in this course will identify the components of algebraic expressions, equations, and inequalities to include variables, coefficients, constants, and the mathematical notations used to define them. They will use mathematical properties to solve multi-step linear equations and inequalities, graph linear equations (from tables and equations) in the rectangular coordinate system, and finally solve systems of linear equations.

#### Course Name: Algebra I - REQUIRED

Course Number	211911		211	912	
Credit Type	Math				
Grade Level	9	10	11	12	
Credit	½ cre	dit per	semest	er	
Course Length	Year Long Course				
Fee	None				
Course Level	General				
Meets Hathaway	Algebra I				
Success Curriculum					
Prerequisite	Pre-Algebra or Linear				
	Algebra (full credit				
	earned)				

Successful completion of Algebra I is a graduation requirement for Campbell County School District.

Algebra I is the first course in a five-year sequence of college preparatory mathematics courses. Algebra I aims to deepen and extend student understanding built in previous courses by focusing on developing fluency with solving linear equations and inequalities and systems; extending these skills to solving quadratic and exponential functions; exploring functions, including sequences, graphically, numerically, symbolically and verbally; and using regression techniques to analyze the fit of models to distributions of data.

#### **Course Name: Geometry**

Course Number	2214	221401		402		
Credit Type	Math					
Grade Level	9	10	11	12		
Credit	½ cred	it per s	emeste	r		
Course Length	Year Long Course					
Fee	None	None				
Course Level	General					
Meets Hathaway	Geometry					
Success Curriculum						
Prerequisite	Algebra I (full credit					
	earned	earned) or Integrated				
	Math I (full credit earned)					

Geometry is the second course in a five-year sequence of college preparatory mathematics courses. This course aims to formalize and extend the geometry that students have learned in previous courses. This is accomplished by focusing on establishing triangle congruence criteria using rigid motions and formal constructions, building a formal understanding of similarity based on dilations and proportional reasoning, developing the concepts of formal proof, exploring the properties of two and three-dimensional objects, working within the rectangular coordinate system to verify geometric relationships, proving basic theorems about circles, and using right triangle trigonometry to solve problems.

#### **Course Name: Enriched Geometry**

				•

	(full credit earned) or			
	Integrated Math I and			d
	Math I	l (full cr	edit ea	rned)
	1			

The Algebra II curriculum is difficult without having previously taken Geometry. However, with teacher recommendation, this is where students may double up by taking Geometry and Algebra II concurrently.

Algebra II is the third course in a five-year sequence of rigorous college preparatory mathematics courses. Algebra II aims to apply and extend what students have learned in the previous two core connections courses by focusing on finding connections between multiple representations of functions, transformations of different function families, an introduction to trigonometry, finding zeros of polynomials and connecting them to graphs and equations of polynomials. Students in this class will use problem solving strategies, questioning, investigating, analyzing critically, gathering and constructing evidence, and formulating rigorous arguments to justify their thinking.

Course Name: Enriched Algebra II

Success Curriculum		
Prerequisite	Algebra I, Geometry,	and
	Algebra II (full credit	
	earned) or Integrated	b
	Math I, Math II, and I	Math
	III (full credit earned)	)

Students will learn to use basic statistical procedures, data analysis strategies, and fundamental properties of probability. Students will use these concepts to analyze situations and experiments for decision-making and predicting outcomes. In this course students will explore linear regressions, covariance and correlation. Students will use technology to organize information and analyze problems using tables, graphs and charts.

#### Course Name: Statistics II

Course Number	256452	
Credit Type	Math	
Grade Level		12
Credit	½ credit	
Course Length	Semester Course	
Fee	None	
Course Level	General	
Meets Hathaway	Statistics II	
Success Curriculum		
Prerequisite	Algebra I, Geometry, Algebra II (full credit earned) or Integrated Math I, Math II, and	d
	III (full credit earned)	

Students will build on the concepts and skills developed in Statistics I as they continue to work with event probability, normal probability distribution, collection and description of data, frequency tables and graphs, random variables, and random sampling. Additional topics will include central limit theorem, confidence intervals, proving independence, and hypothesis testing.

#### **Course Name: Calculus**

Course Number	263631	263632	This course introduces differential calculus through topics
Credit Type	Math		including limits, derivatives, and integrals of algebraic and
Grade Level		12	transcendental functions of one variable with applications.
			Students will develop their reading, writing, and questioning
Credit	½ credit pe	r semester	skills, as well as their ability to work cooperatively.
Course Length	Year Long (	Course	
Fee	None		College credit is available through Gillette College. These scores
Course Level	General		must be obtained prior to the beginning of the school year. Also, the course must be taken by a teacher certified to teach
Meets Hathaway	Calculus		concurrent enrollment courses. A list of qualified teachers is
Success Curriculum			maintained in the Guidance Office.
Prerequisite	Algebra I, Geometry, Algebra II or Enriched Algebra II, and Pre-Calc or Enriched Pre-Calc (full credit earned) Math 1405 (C or higher) OR 27 on the Math portion of ACT test OR a qualifying score of 280 or better on Next Generation Accuplacer		***** The Memorandum between Gillette College and Campbell County School District is renewed annually. Courses offered are subject to change at any time at the Gillette College discretion.
Concurrent Enrollment	MATH 2200 – Calculus I – 4 college credits

Human Anatomy and Physiology is an enriched, challenging course designed for students eager to deepen their understanding of the structure and function of the human body. This class takes an in-depth approach, exploring the human body at chemical, cellular, tissue, organ, and organ system levels. Students will also connect this knowledge to personal interests and health, fostering a meaningful and practical understanding of anatomy.

Frequent quizzes and a strong emphasis on study skills are integral to this course, ensuring students stay engaged and prepared. Hands-on laboratory work and detailed modeling activities provide interactive opportunities to reinforce learning, making this a rigorous and rewarding class for those with a passion for science and the human body.

AP Biology is a rigorous, fast-paced course designed for academically driven students, especially those with an interest in health sciences or biological fields. This course focuses on cultivating students' understanding through inquiry-based investigations across key biological topics, including evolution, cellular processes such as energy and communication, genetics, information transfer, and ecology. The course is ideal for students who are college-bound as it is a great introduction and preparation for College Biology. The AP Exam is administered in early May, and students are highly encouraged to take it. A strong performance on the exam can earn college credit, depending on the score and the specific policies of the college or university the student plans to attend.

# **Physical Science Classes**

# **Course Name: Physical Science**

Course Number	113901		113902

Course Length	Year Long Course		
Fee	None		
Course Level	General		
Meets Hathaway	Physical Science		
Success Curriculum			
Prerequisite	8 <sup>th</sup> grade Science		

This course, exclusively for freshmen, serves as a foundational study of matter and energy and their interrelationship. Designed to introduce students to high school sciences, the course integrates essential concepts from basic chemistry and physics to effectively study and model the principles of matter and energy. This class provides an excellent opportunity for freshmen to build a strong foundation in the sciences while fostering critical thinking and problem-solving skills essential for future academic challenges.

Semester 1 – Physics Semester 2 – Chemistry

#### Course Name: Chemistry I

	<b></b>	, -				
Course Number	132	132501		2501 132		502
Credit Type	Scien	Science

Success Curriculum					
Prerequisite	Successful completion of				
	Chemistry I and Algebra				
	II				

AP Chemistry is a fast paced, academically demanding course. AP exams will be given in early May. Students are strongly encouraged to take the AP exam. Successful performance on the test can lead to college credit depending on the score and the college or university of choice. The course curriculum is established by the Advanced Placement Program of the College Board. This course is much more demanding and complex than Chemistry I and II but the content learned will increase student success in college chemistry. Students interested in engineering and health fields may want to consider this class.

#### **Course Name: Physics**

Course Number	1436	143601 143		602		
Credit Type	Science	Science				
Grade Level		10 11 12				
Credit	½ cred	½ credit per semester				
Course Length	Year Lo	Year Long Course

Course Level	General					
Meets Hathaway	Physics	Physics I				
Success Curriculum						
Prerequisite	_	Algebra II (concurrent or				
	completed)					

Physics is a demanding class that introduces students to the physical laws which govern the universe. The course is a hands-on science class; students participate in activities and demonstrations designed to help them understand how the laws of physics affect their lives. This course is math intensive. Students will develop an understanding of physics concepts and develop problem-solving skills through the completion of daily homework, classroom activities, unit exams, and formal lab reports. Two projects will be assigned each semester, which will require constructing various devices that demonstrate physical laws.

#### **Course Name: AP Physics**

	,				
Course Number	144641	642

Meets Hathaway	Physics II				
Success Curriculum					
Prerequisite	Successful completion of Physics and Algebra II or concurrent				

AP Physics is a rigorous, fast-paced, yearlong course designed for academically driven students. This hands-on science class engages students in activities and demonstrations that illustrate how the laws of physics apply to their everyday lives. The course is math-intensive and emphasizes both conceptual understanding and problem-solving skills. Students will solidify their knowledge through daily homework, frequent quizzes, classroom activities, unit exams, and formal lab reports. The curriculum, established by the College Board's Advanced Placement program, prepares students for the AP Physics exam in early May. Taking the AP exam, which requires a fee, is strongly encouraged. A strong performance on the exam can potentially earn college credit, depending on the score and the policies of the chosen college or university. This demanding course is ideal for students seeking a challenging and rewarding academic experience in physics and are interested in engineering fields.

# **Earth and Space Science Classes**

#### Course Name: Earth Science

Course Number	112901		r 112901		112	902

Grade Level	10 11					
Credit	½ credit per semester					
<b>Course Length</b>	Year Long Course					
Fee	None					
Course Level	General					
Meets Hathaway	Geology I					
Success Curriculum						
Prerequisite	None					

This course focuses on geology and the dynamic processes shaping the Earth's internal systems, emphasizing how changes within these systems impact the biosphere. Students will study the structure, composition, and processes of the Earth, exploring topics such as plate tectonics, rock cycles, and geologic time. The course highlights the use of technology to monitor human impact on Earth's systems and address geological resources and needs. Through scientific modeling and inquiry-based investigations, students will engage deeply with geologic concepts, developing a strong understanding of Earth's processes and their interconnectedness with human activity.

#### Course Name: Astronomy I

Success Curriculum					
Prerequisite	None				

Students will embark on an exciting exploration of the origin and structure of the universe, examining humanity's place within the cosmos. This course delves into celestial phenomena, including the classification of galaxies, the life cycles of stars, and the various types of stars that populate the universe.

Students will study the fundamental forces and energy types that sustain celestial bodies while investigating techniques for determining stellar distances and compositions. They will explore the nature of light, the characteristics of different types of matter, and the tools scientists use to unlock the mysteries of the universe. This course provides a comprehensive and fascinating introduction to the vastness of space and the science behind it.

Building on the foundation of Astronomy I, this course takes students deeper into the wonders of the universe and humanity's place within it. Students will further explore celestial phenomena, expanding their understanding of the forces and energy types that sustain stars, planets, and other cosmic entities.

In Astronomy II, students will apply the knowledge gained throughout both courses to real-world scenarios, using advanced concepts to analyze and interpret astronomical events. This course offers an enriched exploration of the cosmos, bridging theoretical knowledge with practical applications for a comprehensive understanding of the universe.

In this exciting and interactive course, students will delve into the fascinating field of forensic science through engaging whole-group and small-group investigations. From uncovering clues in entomology to navigating the complexities of cyber forensics, students will explore a wide range of topics that showcase the science behind solving mysteries.

The course also examines notable past cases, allowing students to apply the techniques and knowledge learned to analyze and interpret current forensic scenarios. This hands-on approach offers a comprehensive and dynamic experience in the world of forensics, blending scientific inquiry with real-world applications.

AP (Advanced Placement) Human Geography is a year-long course designed for the highly motivated, college-bound students. This course challenges students in a college-level setting to think geographically and explore historical themes. Topics to be covered in the class include globalization, colonialism, and human-environment relationships on places, regions, cultural landscapes, and patterns of interaction and their effects on modern human life. Such a rigorous course requires of student's high academic skills, extensive vocabulary, the ability to read and comprehend college-level text, as well as a willingness to complete homework for up to an hour each night. At the end of the year, students will have the opportunity to show their knowledge on the AP Exam, whereupon passing students can receive college credit.

All seniors must take this course or AP Macroeconomics to fulfill their graduation requirements.

Economics is concerned with the way individuals and nations choose to use scarce resources to satisfy their wants and needs. This course will help you understand how your spending affects what is produced in our nation as well as the world. Current economic conditions will be discusses through a variety of activities including playing an online simulation game about the stock market. Other investment tools will be discussed as well as other topics of interest to high school seniors including money, banking, debit cards, tax preparation, consumer legal issues, credit reports, and insurance. By taking this course you will gain a better understanding of our economy and you will be better able to function as a citizen, consumer, and worker.

Justice is a look at the criminal justice and law enforcement systems. This class will be a great fit for any student, but especially if they are considering a career in the legal or law enforcement area. Students will learn the foundations of crime solving, law enforcement, and our current legal system through the study of historic criminal cases. Students will be expected to complete projects and research, take notes, examine evidence, solve mock crime scenes, and provide motives and alibi possibilities. In addition, students will have presentations from local law enforcement each week to explore all areas of the field. The Justice curriculum meets academic standards, but is also designed to be engaging and intriguing.

#### Course Name: Drawing I

Course Number	643400				
Credit Type	Elective				
Grade Level	9	10	11	12	
Credit	½ credit				
Course Length	Semester Course				
Fee	None				
Course Level	Gene	ral			
Meets Hathaway	Fine A	Arts			
Success Curriculum					
Prerequisite	None				

Have you ever wanted to learn to draw really well? This class will take you through all the steps from looking for basic shapes, proportion, and perspective to value in shading your compositions. You will get to use a variety of media: pencils, colored pencils, crayons, ink, pens, and chalk pastels on a variety of surfaces using many different techniques. Drawing from life, drawing from imagination, and figure drawing will be covered. This course is strongly recommended as a basis for all art classes and is a prerequisite for Drawing II.

### **Course Name: Drawing II**

Course Number	643500				
Credit Type	Elective				
Grade Level	9	10	11	12	
Credit	½ credit				
Course Length	Semester Course				
Fee	None				
Course Level	General				
Meets Hathaway	Fine A	Arts			
Success Curriculum					
Prerequisite	Draw	ing I or	instruc	tor	
	appro	val			

This is the class for you to really shine and produce awesome drawings reflecting creative and expressive compositions!

Drawing II continues to develop drawing skills and ideas through the students own references and observations to create more involved and higher levels pieces.

# **Course Name: Printmaking**

Course Number	657300				
Credit Type	Elective				
Grade Level	9	10	11	12	
Credit	½ cre	dit			
Course Length	Seme	ster Co	urse		
Fee	None				
Course Level	Gene	ral			
Meets Hathaway	Fine A	Arts			
Success Curriculum					
Prerequisite	None				

Printmaking is an ancient art form which in the 20<sup>th</sup> century emerged as a major medium of visual expression. Each of the various printmaking methods presents its own unique possibilities for graphic expression. This course explores the aesthetic of multiple originals of a design. Basic exercises will be presented in several printmaking techniques in conjunction with problems in drawing and design. The latter part of the course will emphasize creative image making and the application of techniques learned to the production of those images.

#### Course Name: Painting I

Course Number	642400				
Credit Type	Electi	Elective			
Grade Level	9	10	11	12	
Credit	½ cre	½ credit			
Course Length	Seme	Semester Course			
Fee	None	None			
Course Level	Gene	ral			
Meets Hathaway	Fine A	Arts			
Success Curriculum					
Prerequisite	None				
	1				

What fun you will have creating in color! You will learn how to mix colors for intensity and value in a variety of media. By exploring basic techniques of painting from art history and trying these techniques from impressionism to realism, from glazing to wet-in-wet techniques, it will lead you to develop your own technique and style. By working from your own references and from life, this will develop your eye to see composition and to create great original paintings!

# **Course Name: Painting II**

Course Number	671520				
Credit Type	Elective				
Grade Level	9	10	11	12	
Credit	½ credit				
Course Length	Semester Course				
Fee	None				
Course Level	General				
Meets Hathaway	Fine A	Arts			
Success Curriculum					
Prerequisite	Painti	ng I or	instruc	tor	
	appro	val			

Painting II builds on all the skills and concepts introduced in Painting I. This gives you another semester to work on your technique with an emphasis on creating expressive and more complex compositions! Projects will put emphasis on creative problem solving in a variety of assignments and explore other ways in which painting can be used, such as in mixed media.

# Course Name: Art Portfolio: Drawing-Painting

Course Number	671100	This class is designed for students interested in pursuing an

Working Smart class	Recommendation	Must be enrolled in				
		Working Smart class				

Working Smart internship provides supervised on-the-job training at cooperating businesses. The student must take the Working Smart class to be enrolled in Working Smart Internship. The student will be employed in a position and work 15-20 hours per week. Students will be paid at least minimum wage, must complete wage/hour reports, follow the guidelines in the training agreement and receive an acceptable performance evaluation. The student is evaluated by the employer and the teacher/coordinator. Students must maintain a passing grade in Working Smart Class and may not miss more than ten (10) days per semester. It is also required that students maintain their own form of transportation to and from their placement.

Do you love sports? Music? Art? Drama? Have you always dreamed of making them part of the rest of your life? Here is your chance. Sports and Entertainment Marketing is the fastest growing segment of the fastest growing industry in the world, marketing. Course content will include the study of careers in the sports and entertainment field including representation of sports stars, entertainers and event venues. Real life applications will supplement text, lecture, and learning activity projects. The student organizations FBLA and DECA are great opportunities for students interested in challenging their newly acquired business skills. The organizations offer many benefits and exciting activities for marketing students, including competitions, awards, scholarships, job opportunities, and travel.

If you are interested in the restaurant business, Professional Foods I class is for you. We study both the cooking side of the restaurant and the business side, using the Foundations of Restaurant Management and Culinary Arts curriculum. Advanced cooking techniques, knife skills, breakfast foods, sandwiches and drinks, cost control, purchasing and inventory, and commercial kitchen equipment will be used as we study and learn about production kitchens. Serving guests, marketing your projects, understanding standardized recipes and running a small business will be included in our Camel Café/Basin Bistro unit as we make and serve food to others. Serve Safe Certificate is an option – 1 college credit available.

\*\*\*\*\* The Memorandum between Gillette College and Campbell County School District is renewed annually. Courses offered are subject to change at any time at the Gillette College discretion.

#### May take this class more than once for elective credit

Tenor/Bass Choir III offers the advanced Tenor/Bass range choral student the opportunity to further their understanding of choral music as well as singing in a group. The choral program is dedicated to the advancement of the student's vocal and general musical abilities through group and individual participation in singing, listening, sight reading, diction, interpretation, theory, performance and class sharing. The student will be introduced to sight singing with the application of solfege. Students will be learning to read both melodic and rhythmic music, which is a prerequisite for any other level of choir. Various styles and periods of literature will be studied. Students will be required to demonstrate a 90 percent mastery of the skills taught in this class when seeking to be a member of any other class. Students will be required to attend and perform in all schedules concerts. Uniforms are required and are provided.

#### Course Name: Engineering Design and Development (EDD)

Course Hurrie. El	gineering	g Design c		
Course Number	806951	806952		
Credit Type	Elective			
Grade Level		12		
Credit	½ credit per	semester		
Course Length	Year Long Course			
Fee	None			
Course Level	Enriched			
Meets Hathaway	CTE			
Success Curriculum				
Prerequisite	Prior PLTW o	course or		
	instructor ap	proval		
Recommendation	Interest in E	ngineering		

Engineering Design and Development (EDD) is the capstone course for the Engineering Pathway and the PLTW high school engineering program. It is an engineering research course in which students work in teams to design and develop an original solution to a valid open-ended technical problem by applying the engineering design process. The course applies and concurrently develops secondary level knowledge and skills in mathematics, science, and technology.

The Engineering Design and Development course of study includes: the design process, intellectual property, teamwork, project management, design specifications, concept testing, design proposal, virtual solutions, building a prototype, testing a prototype, documentation, presenting the process and results, researching problem identification, validation, justification, and test evaluation and refinement

#### Course Name: Principles of Engineering (POE)

Course Number	815901		815	902	
Credit Type	Elective				
Grade Level	10	)	11	12	
Credit	½ credit p	er	semest	er	
Course Length	Year Long	Сс	urse		
Fee	None				
Course Level	General				
Meets Hathaway	CTE				
Success Curriculum					
Prerequisite	None				

Principles of Engineering (POE), is a PLTW course. This survey course introduces students to the basics of the engineering fields. Topics include mechanisms and simple machines, energy sources, statics (the study of objects at rest like trusses and bridges), material properties, robotics, statistics and kinematics (the study of objects in motion like projectiles and self-propelled vehicles). They develop problem solving skills and apply their knowledge of research and design to create solutions to various challenges, document their work and communicate solutions. Several field trips and guest speakers will supplement the course. Recommended that Algebra I be completed prior to enrollment.

Students with an interest in engineering and independent and strong math skills are helpful.

#### Course Name: Welding I

Course Number	87142	871410					
Credit Type	Electi	ve					
Grade Level	9	10	11	12			
Credit	½ cre	½ credit					
Course Length	Seme	Semester Course					
Fee	None	None					
Course Level	Gene	General					
Meets Hathaway	CTE						
Success Curriculum							
Prerequisite	None						
1							

Major areas of study will include using the oxy-acetylene process to cut and braze mild steel, welding safety, welding careers and Shielded Metal Arc Welding (SMAW), also known as "stick welding." This course will introduce students to the welding profession and prepare them for upper level welding courses offered in CCSD.

Students are responsible for providing their own safety clothing.

#### Course Name: Welding II

	<u> </u>					
Course Number	871411	871411 871412

Success Curriculum						
Prerequisite	Successful completion o					
	Welding I	· ·				

Students will learn and practice basic arc welding SMAW, including electrode selections and proper usage, joint design and oxyfuel cutting techniques. Welding will be done on stock up to 3/8" in all positions. Cutting will be done on steel up to ½" and 3/8" with hand and machine torches, power shear, and power saws. Instruction emphasizes safety and care of hand and power tools used in a welding shop.

Students are responsible for providing their own safety clothing.

#### **Course Name: Welding III**

Course Hunne. W	Claining III				
Course Number	871421 871422				
Credit Type	Elective				
Grade Level		11	12		
Credit	½ credit per	semest	er		
Course Length	Year Long Co	ourse			
Fee	None				
Course Level	College/Enri	ched			
Meets Hathaway	CTE				
Success Curriculum					
Prerequisite	Successful completion of Welding II and Instructor Approval				
Concurrent Enrollment	WELD 1700 – General Welding – 4 college credits				

Welding III emphasizes specialized classroom and shop experiences, concerned with the use of both GMAW, SMAW, FEAW, and GTAW welding processes to weld metal parts. Special emphasis will be placed on safety of both equipment and personnel. This course is a continuation of Welding I. The purpose of this course is to develop in-depth welding skills for those students wishing to enter employment on a useful and productive basis. Welding will be practiced on stock up to 1" in horizontal, vertical and overhead positions. Air Carbon Arc Cutting and Plasma Gouging emphasized. This course is concurrently offered for college credit. The laboratory manual from the college course will be utilized throughout the course. Sophomores must obtain instructor approval to enroll in Welding II.

Students can earn an AWS (American Welding Society) certification.

\*\*\*\*\* The Memorandum between Gillette College and Campbell County School District is renewed annually. Courses offered are subject to change at any time at the Gillette College discretion.

Students are responsible for providing their own safety clothing.

~NCAA approved – Additional Core Courses

The primary goals of the World Language Department are to enable students to use the target language in authentic real-life situations and to develop skills in the three modes of communication: Interpersonal (spontaneous two-way communication with the opportunity for negotiation), Interpretive (culturally appropriate interpretation of written or spoken samples in the target language with no opportunity for negotiation to take place, students must infer meaning), and Presentational (communication that occurs from one to many with time for feedback and polishing of final product). The teaching and implementation of the three modes are in unison with our state and national standards. Our World Language Department is aligned with the Wyoming State Foreign Language standards as well as the national standards developed by the American Council on the Teaching of Foreign Languages. Hathaway Scholarship Requirements for the Provisional and Opportunity Level require 2 Years of World Language, CTE, or FPA (WL classes must be sequenced) and for the Performance and Honors Level it requires 4 Years of WL, CTE, or FPA (2 of the 4 years must be a sequenced pathway). Additionally, more and more colleges and universities are requiring a solid language foundation. Thus, it is recommended that college-bound students achieve the proficiency level of Intermediate-low (end of level II).

The target expectation of proficiency ability and performance that students will have at the end of the year are generally as

follows: (Please see chart below for explanation/descriptors for each level)

Level I: Novice-High Level III: Intermediate-Mid

Level II: Intermediate-Low Level IV: Intermediate High to Advanced

#### **Language Proficiency Levels and Descriptors**

	<u></u>
Novice Level	Communicator is limited to using memorized vocabulary in highly predictable/practiced situations.
Novice-Low Level	Students have no real functional ability and because of their pronunciation, may be unintelligible. Given adequate time and familiar cues, they may be able to exchange greetings, give their identity, and name a number of familiar objects from their immediate environment.
Novice-Mid Level	Students communicate minimally using memorized words and phrases to talk about familiar topics related to school, home, and the community.
Novice-High Level	Students communicate using words, lists, and simple sentences to ask and answer questions, discuss interdisciplinary topics studied, and handle simple transactions related to everyday life.
Intermediate Level	Communicator is able to create with the language for basic survival needs: asking and answering simple questions, and dealing with situations or transactions.
Intermediate-Low Level	Students communicate using simple sentences to ask and answer questions, discuss inter-disciplinary topics studied, and handle uncomplicated transactions related to everyday life.
Intermediate-Mid Level	Students communicate using strings of sentences to ask and answer questions, discuss inter-disciplinary topics studied, and handle slightly complicated transactions related to everyday life.
Intermediate-High Level	Students communicate using connected sentences and paragraphs to handle complicated situations on a wide-range of topics.
Advanced Level	Communicator can narrate and describe across time frames with increasing accuracy, engaging in more sophisticated interactions.
Advanced-Low Level	Students communicate using paragraph-level discourse to handle complicated situations on a wide-range of topics.

Credit Type	Electi	Elective			
Grade Level	9	9 10 11 12			
Credit	½ cre	½ credit per semester			
Course Length	Year Long Course				
Fee	None				
Course Level	General				
Meets Hathaway	Foreign Language				
Success Curriculum					
Prerequisite	None				

In this course students will learn to communicate in German at a Novice-High level. Instruction is based on the five national standards for language learning: communication, cultures, connections, communities and comparisons. These standards determine what the students should know and be able to do in the language of study. Students will be exposed to the German language and culture through various resources. The students will be immersed in the German Language except when brief explanations in English are needed. There will be special days in which students participate in cultural activities such as cooking, and the creative arts, including music, art, dance, poetry, storytelling, and drama. Activities will be planned to celebrate various holidays, which are presented from a cultural point of view.

AP Spanish Literature is designed to provide students with a learning experience equivalent to that of a third-year college course in Peninsular and Latin American literature. The course is designed to introduce students to the formal study of representative body of Peninsular and Latin American literary texts. Students will read and analyze authentic works from various periods, which include: Medieval and Golden Age Literature, Nineteenth Century Literature, and Twentieth-Century Literature. Students who take this class must be dedicated and highly motivated to meet the challenge and rigorous standards of this course. The class will be conducted exclusively in Spanish and students will be expected to use the target language at all times. AP exams will be given in early May.

Interested students should talk to their Spanish teacher for ecommendations for proper placement.

# Additional Elective Courses

#### Course Name: ACT Prep

Course Number	700901		700902	
Credit Type	Elective			
Grade Level	9	10	11	12
