Full-time student status: Wyoming High School Activities Association (WHSAA) criteria requires five (5) classes per semester.

Graduation Requirements for 2024-2025 and following years

| Department | Credit | Must Include: |
| :---: | :---: | :---: |
| ENGLISH | 4 Credits | - 1 credit each of Freshman, Sophomore, and Junior English AND <br> - 1 credit of Senior English to include <br> - $1 / 2$ credit of Senior English Speech AND $1 / 2$ credit of Senior English Literature OR <br> - College English 1010 AND Communications 2010: Intro to Public Speaking OR <br> - AP English Literature and Composition |
| MATH | 3 Credits | - 1 credit of Algebra I |
| SCIENCE | 3 Credits | - 1 credit of Biology I |
| SOCIAL STUDIES | 3 Credits | - 1 credit of World Cultures OR World History <br> - 1 credit of U.S. History <br> - $1 / 2$ credit of Economics <br> - $1 / 2$ credit of American Government |
| PHYSICAL EDUCATION | 2 Credits | - $1 / 2$ credit of Health Literacy |
| ELECTIVES | 9 Credits |  |
| TOTAL | $24$ <br> Credits |  |

## Qualifications:

- Seniors only
- Must be on track for graduation (21 credits minimum at beginning of school year and 24 credits minimum at semester)
- Must maintain a 3.0 cumulative GPA

AND

- One (1) of the following:
- Minimum score of a 21 Composite on the ACT Test

OR

- Score proficient in two of these three subject areas on the ACT Test
- Reading - 16 / Math - 17 / Science - 20
*** Community Project will be recalculated periodically and can be earned or forfeited at administrator's discretion.

## Teacher Assistant

- Eligibility to be determined by administrators at each school.
- One (1) Teacher Assistant class per semester
- No more than one credit for Teacher Assistant can be accrued.

## AP Classes - Advanced Placement

AP classes are the most demanding courses offered at the high school. Students earn high school credit and prepare for the AP test given in that subject area. AP tests are subject-specific national exams given in May. The AP test scored on a five (5) point scale; scoring 3, 4 or 5 may possibly earn college credit, determined by the university the student attends. AP exam fees are the responsibility of the student.

## AP Classes

- AP Biology
- AP Physics
- AP Chemistry
- AP Spanish Language and Culture
- AP Spanish Literature and Culture
- AP German Language and Culture
- AP English Language and Composition
- AP English Literature and Composition
- AP Macroeconomics (only @TBHS)
- AP Government and Politics (only @ CCHS)
- AP Human Geography
- AP Art Portfolio: Drawing
- AP Art Portfolio: 2-D Art
- AP Art Portfolio: 3-D Art
- AP Calculus AB and BC

> **AP Exam orders take place in the fall with a final deadline for ordering in November**

## Graduation Recognition Levels

## Valedictorian:

- 4.0 GPA (class rank GPA scale)
- Two (2) AP courses

## Salutatorian:

- Minimum 3.9 GPA (class rank GPA scale)
- One (1) AP course

## Graduation with Honors:

- Minimum 3.75 GPA (cumulative GPA scale)

## Grade Scales

The grade conversion chart below will be used for conversion of grades from percentage to letter grades, class rank GPA, and cumulative GPA. Class rank GPA will be determined according to the conversion chart. Only students progressing toward a regular diploma will be included in class rank. Class rank GPA will ONLY be used to report class rank and to make determinations for valedictorian/salutatorian honors. Cumulative GPA will be determined according to the conversion chart. This GPA is considered the student's official GPA and will be reported on student transcripts.

| Percent Score | Letter Grade | Class Rank GPA* | Hathaway GPA*** |
| :--- | :---: | :---: | :---: |
| $98-100$ | $\mathrm{~A}+$ | 4.000 | 5.0 |
| $93-97$ | A | 4.000 | 5.0 |
| $90-92$ | $\mathrm{~A}-$ | 3.666 | 5.0 |
| $88-89$ | $\mathrm{~B}+$ | 3.333 | 4.0 |
| $83-87$ | B | 3.000 | 4.0 |
| $80-82$ | $\mathrm{~B}-$ | 2.666 | 4.0 |
| $78-79$ | $\mathrm{C}+$ | 2.333 | 3.0 |
| $73-77$ | C | 2.000 | 3.0 |
| $70-72$ | $\mathrm{C}-$ | 1.666 | 3.0 |
| $68-69$ | $\mathrm{D}+$ | 1.333 | 2.0 |
| $63-67$ | D | 1.000 | 2.0 |
| $60-62$ | D- | 0.666 | 2.0 |
| $59 \&$ Below | F | 0.000 | 0.0 |

*Class rank GPA is used ONLY for determining Valedictorians and Salutatorians.
*** The Hathaway GPA will be based on a scale from 0 to 5.0. All courses taken will be included in the GPA calculation; however, only AP, IB, and Dual/Concurrent college courses 1000-level and above will be weighted. College courses below the 1000-level will not be weighted.

# HATHAWAY GPA QUICK FACTS 

Changes have been made to the way high school GPAs are calculated for the Hathaway Scholarship. In accordance with Senate Enrolled Act 0056, the Wyoming Department of Education (WDE) established a grade-weighting policy that accounts for the increased academic rigor of certain high school courses.

All districts will be required to use the weighted Hathaway GPA starting in the 2018-19 school year. All AP, IB, and Dual/Concurrent 1000-level and above courses will be weighted.

## QUICK FACTS

- The Hathaway GPA will be based on a scale from 0 to 5.0. All courses taken will be included in the GPA calculation; however, only AP, IB, and Dual/Concurrent college courses 1000-level and above will be weighted. College courses below the 1000-level will not be weighted.
- All Hathaway courses must be approved by the WDE's Hathaway Team. Additionally, AP courses must be approved by the College Board, and IB courses must be approved by the International Baccalaureate program.
- Starting in the 2018-19 school year, all student transcripts must include the weighted Hathaway GPA.
- The weighted GPA does not apply to any students who graduate before the 2018-19 school year.
- Beginning in the 2018-19 school year, all AP, IB, and Dual/Concurrent Enrollment courses students are taking or have previously taken will be weighted.
- Students do not have to take an AP test in order to receive a weighted grade.
- Students taking Dual/Concurrent Enrollment courses do not need to receive college credit from those courses in order to receive a weighted grade.
- The Chapter 38 Rules have not yet been updated - the Rules Promulgation Procedure requires all new rules to be open for public comment before full implementation.

## Hathaway Scholarship Requirements

| HONORS |
| :---: |
| per semester |

MAX AWARD AMOUNT

8 full-time semesters

## WHERE YOU CAN USE IT

May be used at a WY community college or UW

## LANGUAGE ARTS

## 4 Years

4 Years
One year may include an "additional science" course
Fine and Performing Arts or Career and Technical Education or Foreign Language

| 4 Years <br> 2 years must be sequenced ${ }^{* * *}$ |  | 2 years of CTE, FPA or FL (2 years foreign language must be sequenced) |  |
| :---: | :---: | :---: | :---: |
| ACT SCORE |  |  |  |
| 25 | 21 | 19 | $\text { (Or score a }{ }^{17} \text { on Workkeys) }$ |
| HIGHSCHOOL GPA |  |  |  |
| 3.5 | 3.0 | 2.5 | 2.5 |

Effective July 1, 2021, students can take any HSC approved course/s prior to ninth grade and qualify towards the Hathaway Success Curriculum

[^0]
## WARRANTY:

CCSD will extend a Warranty to all CCSD graduates who have earned at least 10 credits toward their graduation from CCSD schools. The Warranty will provide county employers and employers and employees the opportunity to request remediation in the following skill areas:

1) Basic Math
2) Writing Skills
3) Reading Comprehension

The Warranty will be in effect from the date of graduation until the student's $20^{\text {th }}$ birthday. The Warranty process will be as follows:

1) The employer and/or employee will contact the school granting the diploma for a petition form.
2) The employer and/or employee will file the petition with the principal outlining the skill deficit area.
3) The principal will review the petition, and if justified, will cause the formation of an assessment team to analyze the problem.
4) The principal, assessment team representative, and employee/graduate will meet to discuss the assessment.
5) The team will prescribe instruction, if justified.
6) Instruction will be a CCSD's expense.

As an additional service to employers, CCSD will advertise the fact that high school attendance is expressed as a percentage figure on all CCSD diplomas.

## GUARANTEE

Students who wish to take advantage of the Campbell County School District Guarantee must meet the following criteria:

1) Graduated with a 3.0 GPA or better
2) Earned at least (10) credits toward graduation from CCSD schools.
3) Completed the recommended college preparation curriculum as follows:

- English (four years or more)
- Mathematics (four years or more)
$\rightarrow$ Math must be taken during senior year
$\rightarrow$ One year credit each for Algebra I, Geometry, Algebra II
$\rightarrow$ One year credit for Pre-Calculus, or Calculus I
- $\quad$ Social Studies (four years or more)
$\rightarrow$ One year credit each for American History, World History, and American Government / Economics]
- $\quad$ Natural Science (four years or more)
$\rightarrow$ One year credit each for Biology, Chemistry, General/Physical/Earth Science, and Physics
The Guarantee will entail tuition reimbursement for any remedial course work required by a trade school, community college or university prior to the student's entry into a regular course sequence. The reimbursement for actual course registration costs not to exceed the University of Wyoming resident rate. The student must provide the high school with receipt of tuition cost for the remedial course as well as a transcript. The guarantee will be in effect from the date of graduation until the student's $20^{\text {th }}$ birthday. Students who find themselves in this situation should contact the principal of the high school he or she attended.

## Gillette College Concurrent Enrollment Program

Gillette College, in partnership with Campbell County School District (CCSD), offers courses through Campbell County High School (CCHS) and Thunder Basin High School (TBHS), which provides both high school and college credit. Concurrent Enrollment courses are taught at CCHS or TBHS by their instructors, who have been approved as Adjunct Faculty by Gillette College.

Students are eligible to take concurrent enrollment courses during their junior or senior year or with permission from a high school official. Prospective students are responsible for the completion of all required documents. This includes the Gillette College Admissions application, course registration form, including an application for admission, course registration form, and successful completion of ACT or Accuplacer testing requirements. Testing scores are required for College English1010, Math 1400, Pre-Calculus, and Math 2200 Calculus.

## Please see the table below for the testing requirements.

Concurrent enrollment courses are free to students; tuition and fees are paid through an agreement between CCSD and Gillette College. Students may be asked to purchase books or materials before the start of the class.

Students will receive college credit after successful completion of the class with a grade of C or better. Classes are designated as transfer courses to local area colleges in Wyoming, Montana, Nebraska, and South Dakota, however, this does not include vocational courses. For specific transfer questions, please contact your anticipated college destination. Vocational courses will receive Gillette credit only as they are part of a specific degree program.

This listing of courses represents the anticipated offerings for the 2023-2024 school year.

| Concurrent Enrollment Classes |  |  |

The Memorandum between Gillette College and Campbell County School District is renewed annually. Courses offered are subject to change at any time at the discretion of Gillette College.

## Testing Requirements:

ENGL 1010 ACT Reading 18 or higher
MATH 1400 ACT Math 23 or higher
MATH 2200 ACT Math 27 or higher
OR Accuplacer Reading 255 or higher
OR Completion of MATH 1400 \& MATH 1405

## *SCORES MUST BE OBTAINED BY FIRST DAY OF CLASSES

## Pronghorn Advantage Scholarship Program

Pronghorn Advantage are programs offered to qualified juniors and seniors at Campbell County and Thunder Basin High Schools. These programs give you a chance to experience actual college classes and college life before graduating from high school. Participating students enroll in college courses taken at Gillette College and attend classes at the college during the school day or in the evenings. On-line courses offered through the college also qualify. Students who qualify receive a scholarship that pays full tuition and fees for all coursework taken as long as you maintain satisfactory grades.

All Pronghorn Advantage students attend classes just like all other college students. Organizing time, getting to class, developing responsibility to deal with various requirements, and actually functioning in college will be a great transition to and preparation for college enrollment following high school graduation. Successful students will receive college grades on a college transcript, and fully transferable college credits.

Two kinds of courses are available through this program. Transfer courses, those that are designed to transfer into a Baccalaureate Degree at a community college or university; like English, math, psychology, government, economics, etc., are available and fulfill nearly all college general education requirements. In addition, advanced career-technical education courses (CTE) are available to student who have completed the basic curriculum at the high school (welding, diesel, etc.) Think of the advantage you'll have when you finally enroll in college as a full-time student. College classes and expectations will be nothing new to you. You will have already successfully participated in a transition to college course work and you will be ready to face college life with ease.

The high school will release Pronghorn Advantage students from high-school classes on a case-by-case basis as needed. First-time enrollees are limited to six credits at the college or generally two classes. After one successful semester, a student may take up to 16 credits (full-time college status) at the college. All courses taken via the Pronghorn Advantage program are taken for credit at both the high school and the college.

Daytime classes at the college tend to fill quickly once registration opens so don't delay. If you plan to take advantage of this program, try to sign up and register early in order to have the best choice and flexibility in choosing classes.

## Requirements for Participation:

- Juniors \& Seniors
- Accuplacer scores may be required for some courses
- Approval of high school counselor and Director of BOCHES
- CTE Courses:
o Student must have completed basic courses in the CTE program at the high school

## How do I sign up?

Speak with your counselor and let them know you're interested and to receive the dual enrollment packet. Follow the steps outlined in the packet, including meeting with the Director of BOCHES and a college representative. For questions contact the Gillette College enrollment office at 307-681-6003.

## Will the college credits transfer?

The credits taken at Gillette College will transfer to most major colleges and universities in the country, this is determined by the college or university you will be attending.

## What does this cost?

All tuition and fees for the courses will be paid through a scholarship by BOCHES (Board of Cooperative Higher Education Services). Students are responsible for books and all course materials required.

## What courses can I take at the college?

Any non-remedial college-level course 1000 level or above with approval by the CCHS / TBHS Principal qualifies.

## When can I begin this program?

Students who qualify may begin the program in the summer semester prior to their junior year in high school or any time after.

Can I use the Pronghorn Advantage program for summer college classes? Yes, as long as you are at least a junior and have not yet graduated from high school.

## Would I be a college or high school student?

Both. Students are treated just as all other college students when in class at the college and just like all other high school students when at class in the high school. Students who enroll in the courses will receive the same grade for the course at BOTH the high school and the college.

## Is transportation provided?

No. You are responsible to get to and from your college classes.

## Does the scholarship cover book costs?

No, the Pronghorn Advantage scholarship only covers the cost of tuition and fees. Students who participate in the program are responsible for book and material costs for courses.

## WHSAA and Transferring to a New School

The purpose of the Transfer Rule (Rule 6.4.0 thru Rule 6.4.93) is to protect, not inhibit students who participate in athletic competition. The Transfer Rule is preventative in nature and is devised to eliminate the incentive to transfer schools when a motivation is for athletic purposes and after a student has initially chosen the school of his/her choice. The Transfer Rule protects students who have previously participated in athletic competition at a member school from being replaced by students who transfer for athletic purposes and further protects students at other member schools from the affects of "school shopping" by students (Rule 4.1.2) and "recruiting" by member schools and their agents (Rule 4.1.1 and Rule 4.1.2). The Transfer Rule encourages fair play, discourages the excesses and abuses of over enthusiastic promotion and protects the integrity of interscholastic athletic programs for the member schools and their students. The eligibility of a transfer student must be established by school records or verification from the sending school. The responsibility for establishing eligibility rests with the receiving school. A student's residence is the home in which the parent(s) or legal guardian actually, physically live. Residence can be changed only by the union of "act and intent." The residence of a person is where his habitation is fixed and to which, whenever he is absent, he has the intention of returning. A change of residence can only be made by the act of removal joined with the intent to remain in another place. There can be only one residence. The only legal guardianship that is recognized by the WHSAA for transfer rule purposes is that legal guardianship which has been established at least 12 months prior to the student's moving to a new school and the fact that the student has been living with that legal guardian in their previous school setting.

# WYOMING HIGH SCHOOL ACTIVITIES ASSOCIATION 6571 East 2nd Street Casper, Wyoming 82609 2023-2024 <br> <br> GENERAL RULES OF ELIGIBILITY 

 <br> <br> GENERAL RULES OF ELIGIBILITY}

These rules are WHSAA minimum requirements. WHSAA member schools may establish additional rules. For a complete copy of these rules, please see your principal or activities director.

## A STUDENT

1. *Must have passed in at least five solid subjects in the immediate preceding semester and must be passing five solid subjects in the current semester. Special education students must meet IEP goals set for them.
2. Must be under twenty years of age on August 1 for fall sports, November 1 for winter sports, and March 1 for Spring sports.
3. Must have been in residence at the school he or she is representing for one year from date of enrollment unless
a. Entering ninth grade for the first time.
b. Transferring into a school due to a move on the part of parent or legal guardian of twelve months.
c. Assigned to a foster home by court order.
d. Transferring from a school which has been discontinued or consolidated.
e. Student did not compete in the same activity which is being participated in at varsity level at new school during twelve months prior to enrollment at new high school.
4. Must not have changed schools due to influence by any person(s) or promises of preferential treatment.
5.     * Must not have been in attendance for more than four fall or four spring semesters, for a total of eight semesters, which will be counted consecutively after the student enters the ninth grade.
6. Must have had a physical examination prior to first practice, but not before May 1 of this year.
7. Must have practiced for the required number of days dependent upon the sport. (Check with Principal)
8. *Must not participate with an independent team while a member of high school competing squad in the same sport or activity.
9. Must not have received any awards with a value greater than $\$ 250$ or any cash as the result of athletic involvement.
10.     * Must be currently enrolled in the school student is competing with and be in good standing.
11. Must be an amateur - one who has never used and is not now using athletic skill for monetary gain.
12. Must not have participated in athletics with any college or university group.

* Fine Arts \& Vocational participants need only meet these requirements.

## SCHOOLS, REMEMBER...

1. To get physicals on athletes before they participate in practice or contest.
2. To check the number of practice days for each participant.
3. To have on file in school OFFICE (before competition) a master eligibility list of all students participating in interscholastic activities and the eligibility rules pamphlet sign-off for each participant.
4. To submit transfer form for pupils transferring into your school.
5. To hire only WSOA registered officials

Complete this checklist to get in the game!
Find more information at www.playnaia.org/freshmen

Register and submit a complete profile at PlayNAIA.org as early as your junior year. You might qualify for an early decision if you have an elevated GPA, check our website for more information..
Make sure to opt-in to texting for up-to-date alerts.

## Ask Your Counselor to Send Your High School

Transcript through their 'High School Portal' for same-day delivery.
For other delivery methods, visit our website.

Request Your ACT or SAT Score to be sent directly from the testing agency using our code, 9876 . Test scores cannot be taken from your high school transcript.

If You Have Questions email us at ECInfo@naia.org or call
(816) 595-8300. We're here to help you!

1. Minimum high school GPA of a 2.0 or higher.
2. Minimum ACT or SAT score.
3. Graduate in the top half of your high school class.

Requirements differ for students with a GED, home schooling, and/or who took time off after high school graduation (excluding summer).

## Learn more at

 www.PlayNAIA.org/Eligibility-Center
# Registration Checklist 

> If you want to compete in NCAA sports, you need to register with the NCAA Eligibility Center at eligibilitycenter.org. Plan to register before your freshman year of high school (or year nine of secondary school).

## Which account type do I need?

1. Profile Page Account: If you're not sure in which division you want to compete, or are a domestic student who plans to compete at a Division III school, register for a free Profile Page account. If at any time you wish to pursue a Division I or II path, you'll be able to transition your account to the required certification account.
2. Academic and Amateurism Certification Account:

You must receive an academic and amateurism certification from the Eligibility Center to compete at an NCAA Division I or II school. You must complete the Academic and Amateurism Certification account registration (including payment or fee waiver) before you go on official visits, sign a National Letter of Intent, receive an athletics scholarship or compete at a Division I or II school.

## 3. Amateurism-Only Certification Account:

If you're an international student-athlete (firstyear enrollees and transfers), you must receive an amateurism certification from the Eligibility Center to compete at an NCAA Division III school. You must register with a certification account and receive your final amateurism certification before you can compete at a Division III school.

This account may also be right for domestic students transferring from a two-year school to a Division I or II school who did not require an Eligibility Center academic certification. These students should check with the compliance office at the NCAA school they may attend to determine their required account type.

| NOAA ELICIBILITY GENTER ACCOUNT TYPES |  |  |  |
| :---: | :---: | :---: | :---: |
| In which division do you plan to compete? | Academic and Amateurism Certification Account | Amateurism-Only Certification Account | Profile Page* Account |
| Division I |  |  |  |
| Any recent high school graduate (domestic or international), first-time enrolling at NCAA school. | $\nu$ |  |  |
| Transferring from a two- or four-year college or university. Check with the compliance office at the school you may attend. |  |  |  |
| Division II |  |  |  |
| Any recent high school graduate (domestic or international), first-time enrolling at NCAA school. | $V$ |  |  |
| Transferring from a two- or four-year college or university. Check with the compliance office at the school you may attend. |  | - |  |
| Division III |  |  |  |
| Recent high school graduate (domestic only, first-time enrolling at NCAA school. |  |  | $\checkmark$ |
| Recent high school graduate who maintains a permanent residence outside of the U.S. |  | $\nu$ |  |
| Recent high school graduate who attended high school or college outside of the U.S. for any time (excluding U.S.-based students who study abroad). | $\checkmark$ O | OR |  |
| Recent high school graduate (international only), first-time enrolling at NCAA school. |  | $\checkmark$ |  |
| Recent high school graduate who competed outside of the U.S. |  | $\checkmark$ |  |
| Transferring from a two- or four-year college or university, attended domestic high school(s) only. |  |  | $\checkmark$ |
| Transferring from a two- or four-year college or university, attended at least one international high school (U.S. territories are considered domestic). |  | $\checkmark$ |  |
| Division Undecided/Unknown |  |  |  |
| Never enrolled full time at a two- or four-year college or university. Best for younger students or before recruiting begins. Can be transitioned to a certification account when needed. |  |  | $\checkmark$ |

Once you have determined the right account for you, visit eligibilitycenter.org to register. A list of information you will need to complete your account is outlined on below. For a Profile Page account, allow 15 minutes to complete. For certification accounts, allow between 30 and 45 minutes to complete. If you need to exit and come back at a later time, you can save and exit once your account is created.
*Unsure which account type is right for you? Start with our free Profile Page account, then check with the compliance office at the NCAA school you may attend. If you need additional assistance, contact the Eligibility Center's Customer Service team at 877-262-1492, 9 a.m. to 5 p.m. Eastern time Monday-Friday for assistance. International students (including Quebec) should use the International Contact Form to submit questions.

## ELIGIBILITY GENTER REGISTRATION ESSENTIALS

Below are some items you should have with you as you create an account at eligibilitycenter.org:

## Valid Email for Student

To register, you need a valid email address that you check regularly and will have access to after high school. The Eligibility Center uses email to update you about your account throughout the process. Note: If you have a sibling who has previously registered, you will need to use a different email address than the one in your sibling's account.

## Basic Student Personal Information

This includes information such as your name, gender, date of birth, primary and secondary contact information, address and mobile number for texting.

## Basic Student Education History

We will ask you to provide details about all secondary and high schools and additional programs you attend in the U.S. and internationally. Be sure to include all schools, regardless of whether you received grades or credits. If you attended ninth grade at a junior high school located in the same school system in which you later attended high school, do not list the ninth-grade school.

## Student Sports Participation History

Select the sport(s) you plan to participate in at an NCAA school. For certification accounts, we will ask you to provide details for any expenses
or awards you received, any teams you have practiced or played with or certain events in which you participated. We also ask about any individuals who have advised you or marketed your skills in a particular sport. This information helps the Eligibility Center certify your amateur status once you request your final amateurism certification.

Payment (Certification Accounts Only)
Your Academic and Amateurism or AmateurismOnly Certification account registration is complete only after your registration fee is paid (or upon indicating you're eligible for a fee waiver, if you're eligible). You may pay online by debit, credit card or echeck. For the Academic and Amateurism Certification account, the fee for college-bound student-athletes attending a high school in the U.S., U.S. territories or Canada is $\$ 100$; the fee for international students is $\$ 160$. For students for which an Amateurism-Only Certification account is the right choice, the fee for all students is $\$ 70$. Profile Page accounts do not have a fee.

All fees are nonrefundable 30 days after the certification account fee is paid. If you completed a duplicate registration and paid your registration fee twice, you may be eligible for a refund. To receive a refund, you will need to complete and submit an NCAA refund form.

Unsure if you've already created an account? Contact Customer Service at 877-262-1492 prior to creating a new account to avoid duplicate account issues during recruiting.

## Initial-Eligibility Standards

If you want to compete in NCAA sports, you need to register with the NCAA Eligibility Center at eligibilitycenter.org. Plan to register before your freshman year of high school. For more information on registration, visit on.ncaa.com/RegChecklist.

## Academic Requirements

Division I and II schools require you to meet academic standards. To be eligible to practice, compete and receive an athletics scholarship in your first year of full-time enrollment, you must meet the following requirements:

## Division I

1. Earn 16 NCAA-approved core-course credits in the following areas:

4 years

3 years

2 years

1 year

2 years

4 years
2. Complete your 16 NCAA-approved core-course credits in eight academic semesters or four consecutive academic years from the start of ninth grade. If you graduate from high school early, you still must meet core-course requirements.
3. Complete 10 of your 16 NCAA-approved core-course credits, including seven in English, math or science, before the start of your seventh semester. Once you begin your seventh semester, any course needed to meet the 10/7 requirement cannot be replaced or repeated.
4. Earn a minimum 2.3 core-course GPA.
5. Ask your high school counselor to upload your final official transcript with proof of graduation to your Eligibility Center account.

## Division II

1. Earn 16 NCAA-approved core-course credits in the following areas:

2. Earn a minimum 2.2 core-course GPA.
3. Ask your high school counselor to upload your final official transcript with proof of graduation to your Eligibility Center account.

## Division III

While Division III schools set their own admissions and academic requirements, international student-athletes (first-year enrollees and transfers) who are enrolling at a Division III school after Aug. 1, 2023, must be certified as an amateur by the Eligibility Center. Contact the Division III school you plan to attend for more information about its academic requirements.

GRADE If you haven't yet, register for a free Profile Page account at eligibilitycenter.org
for information on NCAA initial-eligibility requirements.
Use NCAA Research's interactive map to help locate NCAA schools you're interested
in attending.
Find your high school's list of NCAA-approved core courses at eligibilitycenter.org/
courselist to ensure you're taking the right courses, and earn the best grades possible!

## REGISTIER

## GRADE

10
» If you're being actively recruited by an NCAA school and have a Profile Page account, transition it to the required certification account.
» Monitor the task list in your NCAA Eligibility Center account for next steps.
» At the end of the school year, ask your high school counselor from each school you attend to upload an official transcript to your Eligibility Center account.
»If you fall behind academically, ask your high school counselor for help finding approved courses you can take.

## PLAN

## GRADE

STUDY

GRADE

» Ensure your sports participation information is correct in your Eligibility Center account.
» Check with your high school counselor to make sure you're on track to complete the required number of NCAA-approved core courses and graduate on time with your class.
» Share your NGAA ID with NCAA schools recruiting you so each school can place you on its institutional request list.
» At the end of the school year, ask your high school counselor from each school you attend to upload an official transcript to your Eligibility Center account.
» Request your final amateurism certification beginning April 1 (fall enrollees) or Oct. 1 (winter/spring enrollees) in your Eligibility Center account at eligibilitycenter.org.
» Apply and be accepted to the NCAA school you plan to attend.
» Complete your final NCAA-approved core courses as you prepare for graduation.
» After you graduate, ask your high school counselor to upload your final official transcript with proof of graduation to your Eligibility Center account.

## Course Code Descriptions

Each course within the course guide is labeled with a code that identifies the level of rigor for that course. The majority of courses are taught at a level of rigor appropriate for that grade level and are marked $G$ for General. Some courses are designed to focus on basic skill development in order to prepare a student for a general course and are marked B for Basic. By contrast, some courses are designed with a higher level of rigor and are marked E for Enriched. Enriched courses challenge students with a fast paced curriculum and greater depth of study in the respective content area. Advanced Placement (AP) courses fall within this category. In addition, courses designated with a C are college level courses designed to earn credit at a postsecondary institution. While AP courses provide the opportunity for college credit as well, earned credit depends upon AP exam scores and the policy of the accrediting institution. All courses, regardless of level, are aligned to adopted Wyoming content standards.

B - Basic: This course focuses primarily on skills development, including literacy in language, mathematics, and the physical and social sciences. These courses are typically less rigorous than standard courses and are intended to prepare a student for a general course.

G - General: This course provides instruction that focuses primarily on general concepts appropriate for the grade level. General courses meet the state and district expectations of scope and difficulty for mastery of the content.

E - Enriched: This course augments the content and rigor of a general course. The students will be challenged with a fast paced curriculum that deeply studies the topics within the discipline. AP courses within this designation provide opportunity for college credit based on an end of course exam.

C - College: This course is designed to be credit bearing at a postsecondary institution.

## Language Arts

All students must successfully complete 4 years of English in grades 9 through 12 as part of basic graduation requirements.

Hathaway requirement: (Please reference page 5)
Provisional Opportunity - 4 years
Opportunity - 4 years
Performance - 4 years
Honors - 4 years

Course Name: Enriched Junior English

| Course Number | 421551 | 421552 | Enriched Junior English covers American Literature in a holistic frame of thought. Students have the opportunity to study literature (the essay, short story, poem, drama, novel, and historical nonfiction) as a part of the humanities while teachers challenge them to think, discuss/speak, read, and write on the literal, interpretive, and evaluative levels. Presented chronologically, the course covers American literature beginning with the 1600's and ending in contemporary literature. In addition, students study vocabulary, grammar and usage each semester and will engage in ongoing preparation for the ACT plus Writing exam. Enriched Junior English is designed to challenge students in an environment filled with rigor and high expectations. Students will read additional texts, engage in deep discussion of literature from various literary approaches, and complete multiple academic writings designed to challenge and prepare participants for both college and career opportunities. |

## Course Name: AP English Language and Composition

| Course Number | 461641 | 461642 | Following the College Board's suggested curriculum designed to <br> parallel college-level English courses, AP English Language and <br> Composition courses expose students to prose written in a variety <br> of periods, disciplines, and rhetorical contexts. These courses <br> emphasize the interaction of authorial purpose, intended <br> audience, and the subject at hand, and through them, students |
| :--- | :--- | :--- | :--- |
| Credit Type | English | 11 | $1 / 2$ credit per semester |
| learn to develop stylistic flexibility as they write compositions |  |  |  |
| covering a variety of subjects that are intended for various |  |  |  |
| purposes. Students are strongly encouraged to take the AP Exam. |  |  |  |
| Grade Level | Year Long Course | Fee required for AP test |  |
| Credit | Enriched | AP English Language and <br> Successful performance on the test can lead to college credit <br> depending on the score and the college or university of choice. <br> College credit varies by post-secondary institution. Summer <br> reading may be required. Students may be required to purchase <br> texts. |  |
| Course Length | Fee | None | Meets Hathaway <br> Success Curriculum |
| Prerequisite |  |  |  |

Course Name: Senior Literature

| Course Number | 433600 | Senior Literature focuses on the study of various periods of literature within the British Canon. Each student will engage in the close reading and discussion of various works within at least three periods, including assigned works of poetry, drama, prose, and supporting informational texts. Authors may include, but are not limited to William Shakespeare, Geoffrey Chaucer, William Wordsworth, John Keats, George Orwell and T.S. Eliot. The ultimate goals for Senior Literature is for students to understand, interpret, and apply literature at personal and academic levels. |  |  |
| :---: | :---: | :---: | :---: | :---: |
| Credit Type | English |  |  |  |

| Meets Hathaway Success Curriculum | Senior Literature |  |  |  |
| Prerequisite | None |  |  |  |

Course Name: Senior English

| Course Number | 434600 | This semester will focus on three areas: speech, self-exploration, <br> and rhetorical critique. During this semester, students will be <br> instructed in all aspects of formal public speaking in order to gain <br> insight into the skill of oral communication. Various speeches will <br> be written, discussed and performed in the course of the <br> semeter. Students will also complete all reading, writing, <br> journaling or hands-on work necessary to ensure college and <br> credit Type | English |
| :--- | :--- | :--- | :--- |

## Course Name: AP English Literature and Composition

| Course Number | 405641 | 405642 |
| :--- | :--- | :---: |
| Credit Type | English | 12 |
| Grade Level | credit per semester |  |
| Credit | Year Long Course |  |
| Course Length | Fee required for AP test |  |
| Fee | Enriched |  |
| Course Level | AP English Literature and <br> Composition |  |
| Meets Hathaway <br> Success Curriculum | None |  |
| Prerequisite |  |  |

Following the College Board's suggested curriculum designed to parallel college-level English courses, AP English Literature and Composition courses enable students to develop critical standards for evaluating literature. Students will closely study various works of British and American literature; interpret and defend literary observations, both orally and in writing; and create a solid base understanding of classic literature. The course also includes intense preparation for each section of the AP English Literature and Composition exam. Students are strongly encouraged to take the AP Exam. Successful performance on the test can lead to college credit depending on the score and the college or university of choice. College credit varies by postsecondary institution. Summer reading may be required.

Course Name: College English 1010

| Course Number | 452620 |
| :--- | :--- |
| Credit Type | English |
| Grade Level | $1 / 2$ credit |
| Credit | Semester Course |
| Course Length | College Textbook |
| Fee | College |
| Course Level | College English 1010 |
| Meets Hathaway <br> Success Curriculum | $18+$ on the Reading <br> portion of ACT test or <br> qualifying score of 255 <br> or better on Next <br> Generation Accuplacer <br> Exam |
| Prerequisite | ENGL 1010 English - <br> 3 college credits |
| Concurrent Enrollment |  |

English 1010 is designed to study, practice and master the art of writing formal essays. Students will (1) write voraciously; (2) express original thought on diverse topics; (3) bring drafts of essays to class for peer revision and editing; (4) participate in genuine and poignant discussion and feedback about writing efforts; (5) create multiple drafts of essays in pursuit of quality work and (6) submit professional quality, academic essays. With consistent practice and participation, students will learn the skills necessary to practice the writing process as an individual endeavor and use standard, formal English.
*****The Memorandum between Gillette College and Campbell County School District is renewed annually. Courses offered are subject to change at any time at the Gillette College discretion.

## Course Name: Communications 2010: Intro to Public Speaking

| Course Number | 442300 |
| :--- | :--- |
| Credit Type | English |
| Grade Level | $1 / 2$ credit |
| Credit | Semester Course |
| Course Length | College Textbook |
| Fee | College |
| Course Level | Communications 2010: <br> Intro to Public Speaking |
| Meets Hathaway <br> Success Curriculum | Successful completion of <br> College English 1010 |
| Prerequisite | CO/M 2010 Intro to <br> Public Speaking - <br> 3 college credits |
| Concurrent Enrollment |  |

This course introduces students to the art of public speaking. The focus will be on developing ideas, organizing information, researching, and delivery of formal and informal speeches. Students will work on increasing their confidence as speakers by giving numerous speeches throughout the semester. The students will also examine rhetoric and speeches throughout history with a focus on analysis.
***** The Memorandum between Gillette College and Campbell County School District is renewed annually. Courses offered are subject to change at any time at the Gillette College discretion.

~NCAA approved - Mathematics

The CCSD math departments are committed to the implementation of the CCSS Mathematical Practices, as outlined below. These practices define the culture of the CCSD math classrooms.

## MATH Standards for Mathematical Practice in Action

| Practice | Sample Student Evidence | Sample Teacher Action |
| :---: | :---: | :---: |
| 1. Make sense of problems and persevere in solving them. | *Display sense-making behaviors. <br> *Show patience and listen to others. <br> *Turn and talk for first steps or generate a solution plan. <br> *Analyze information in problems. <br> *Use and recall multiple strategies. <br> *Self-evaluate and redirect <br> *Assess the reasonableness of process and answer. | *Provide open-ended problems. <br> *Ask probing questions. <br> *Probe student responses. <br> *Promote and value discourse. <br> *Promote collaboration. <br> *Model and accept multiple approaches. |
| 2. Reason abstractly and quantitatively. | *Represent abstract and contextual situations symbolically. <br> *Interpret problems logically in context. <br> *Estimate for reasonableness <br> *Make connections, including real-life situations. <br> *Create and use multiple representations. <br> *Visualize problems. <br> *Put symbolic problems into context. | *Model context to symbol and symbol to context. <br> *Create problems such as, "What word problem will this equation solve. <br> *Give real-world solutions. <br> *Offer authentic performance tasks. <br> *Place less emphasis on the answer. <br> *Value invented strategies <br> *Think aloud |
| 3. Construct viable arguments and critique the reasoning of others. | *Question others. <br> *Use examples and nonexamples. <br> *Support beliefs and challenges with mathematical evidence. <br> *Form logical arguments with conjectures and counterexamples. <br> *Use multiple representations for evidence. <br> *Listen and respond to others well. <br> *Use precise mathematical vocabulary. | *Create a safe and collaborative environment. <br> *Model respectful disclosure behaviors. <br> *Provide find-the-error problems. <br> *Promote student-to-student discourse (do not mediate discussion). <br> *Plan effective questions or Socratic formats. <br> *Provide time and value discourse. |
| 4. Model with mathematics. | *Connect math (numbers and symbols) to real-life situations. <br> *Symbolize real-world problems with math. <br> *Make sense of mathematics. <br> *Apply prior knowledge to solve problems. <br> *Choose and apply representations, manipulatives, and other models to solve problems. <br> *Use strategies to make problems simpler <br> *Use estimation and logic to check the reasonableness of an answer. | *Model reasoning skills, <br> *Provide meaningful, real-world authentic, performance-based tasks. <br> *Make appropriate tools available. <br> *Model various modeling techniques. <br> *Accept and value multiple approaches and representations. |
| 5. Use appropriate tools strategically. | *Choose appropriate tool(s) for a given problem. <br> *Use technology to deepen understanding. <br> *Identify and locate resources. <br> *Defend mathematically the choice of a tool. | *Provide a toolbox at all times with all available tools; students then choose as needed. <br> *Model tool use, especially technology for understanding. |
| 6. Attend to precision. | *Communicate (orally and in writing) with precise vocabulary. <br> *Carefully formulate questions and explanations (not retelling steps) <br> *Decode and interpret the meaning of symbols. <br> *Pay attention to units, labels, scale, and so forth. <br> *Calculate accurately and effectively. <br> *Express answers within context when appropriate. | *Model problem-solving strategies. <br> *Give explicit and precise instructions. <br> *Ask proving questions. <br> *Use English language arts strategies of decoding, comprehending, and text-to-self connections for interpreting symbolic and contextual math problems. *Guided inquiry. |
| 7. Look for and make use of structure. | *Look for, identify, and interpret patterns and structures. *Make connections to skills and strategies previously learned to solve new problems and tasks. <br> *Breakdown complex problems into simpler and more manageable chunks. <br> *Use multiple representations for quantities. <br> *View complicated quantities as both a single object and <br> a composition of objects. | *Let students explore and explain patterns. <br> *Use open-ended questioning. <br> *Prompt students to make connections and choose problems that foster connections. <br> *Ask for multiple interpretations of quantities. |
| 8. Look for and express regularity in repeated reasoning. | *Design and state shortcuts. <br> *Generate rules from repeated reasoning or practice (e.g., integer operations) <br> *Evaluate the reasonableness of intermediate steps. *Make generalizations. | *Provide tasks that allow students to generalize *Don't teach steps for rules, but allow students to explore and generalize to discover and formalize. <br> *Ask deliberate questions. <br> *Create strategic and purposeful check-in-points. |

## ALL Students must pass Algebra I.

The CCSD Graduation requirement is that all students will successfully complete at least 3 (three) total years of mathematics during their $9^{\text {th }}$ thru $12^{\text {th }}$ grades years, including Algebra I.

- Mathematics is included in the high school curriculum to give the students an understanding of the world of numbers and space, as well as an appreciation for their interests, needs and plans, the selection and content of courses offered vary from basic to sophisticated.
- Mathematical Academic Competencies are specified intellectual skills that are essential for effective work in all fields of college study. Math provides the link to all disciplines.
- $\quad$ The SAT Test and/or ACT Test results are used by college admissions as measurement and predictor of student successes. The math portion of the SAT/ACT specifically measures the candidate's preparation in the following areas: Number \& Quantity, Algebra, Functions, Geometry, Statistics \& Probability, and Modeling.

## Mathematics Courses

## Course Name: Linear Algebra

| Course Number | 203301 |  | 203302 |  |
| :--- | :--- | :--- | :--- | :--- | | Linear Algebra is an intervention course for students that have |
| :--- |
| been recommended by their teacher or have incomplete Pre- |
| Algebra or Algebra I Iredit. It combines the study of some pre- |
| algebra and algebra topics with introductory geometry topics. |
| This course includes the study of formulas, algebraic expressions, |
| first-degree equations and inequalities, the rectangular |
| creordinate system, area, perimeter, and volume of geometric |
| coligures, and properties of triangles and circles. |

Course Name: Algebra I-REQUIRED

| Course Number | 211911 | 211912 |  | Successful completion of Algebra $I$ is a graduation requirement for Campbell County School District. <br> Algebra I is the first course in a five-year sequence of college preparatory mathematics courses. Algebra I aims to deepen and extend student understanding built in previous courses by focusing on developing fluency with solving linear equations and inequalities and systems; extending these skills to solving quadratic and exponential functions; exploring functions, including sequences, graphically, numerically, symbolically and verbally; and using regression techniques to analyze the fit of models to distributions of data. |
| :---: | :---: | :---: | :---: | :---: |

Course Name: Geometry

| Course Number |  |  |  |  | Geometry is the second course in a five-year sequence of college preparatory mathematics courses. This course aims to formalize and extend the geometry that students have learned in previous courses. This is accomplished by focusing on establishing triangle congruence criteria using rigid motions and formal constructions, building a formal understanding of similarity based on dilations and proportional reasoning, developing the concepts of formal proof, exploring the properties of two and three-dimensional objects, working within the rectangular coordinate system to verify geometric relationships, proving basic theorems about circles, and using the language of set theory to compute and interpret probabilities for compound events. |

| Prerequisite |  |  |  |  |  |  |

The Algebra II curriculum is difficult without having previously
taken Geometry. However, with teacher recommendation, this
is where students may double up by taking Geometry and
Algebra II concurrently.
Algebra II is the third course in a five-year sequence of rigorous
college preparatory mathematics courses. Algebra II aims to apply
and extend what students have learned in the previous two core
connections courses by focusing on finding connections between
multiple representations of functions, transformations of
different function families, finding zeros of polynomials and
connecting them to graphs and equations of polynomials.
Students in this class will use problem solving strategies,
questioning, investigating, analyzing critically, gathering and
constructing evidence, and formulating rigorous arguments to
justify their thinking.

Course Name: Enriched Algebra II

| Course Number | 242601 |  |  | Preference: B- or higher in Geometry with instructor approval <br> This course is an extension of the Algebra II course listed previously. As with Algebra II, students in Enriched Algebra II will apply and extend what they have learned in previous courses. This course augments the content and rigor of Algebra II including all of the topics and skills listed under Algebra II as well as modeling periodic phenomena with trigonometric principles and understanding the role of randomness and the normal distribution in making statistical conclusions. This class is to be taken in place of Algebra II. |

| Meets Hathaway Success Curriculum | Pre-Calculus |  |  |
| Prerequisite | Algebra I, Geometry, and Algebra II (full credit earned) or Integrated Math I, Math II, and Math III (full credit earned) <br> For college credit: Math 1400-23+ on the Math portion of ACT test or qualifying score of 240 or better on Next Generation Accuplacer exam <br> Math 1405 (for students placed $2^{\text {nd }}$ semester only) Math 1400 or $25+$ on the Math portion of ACT test or qualifying score of 260 or better on Next Generation Accuplacer exam |  |  |
| Concurrent Enrollment | MATH 1400 - Pre-Calculus (1 ${ }^{\text {st }}$ semester) -4 college credits <br> MATH 1405 Trigonometry (2 ${ }^{\text {nd }}$ semester) -3 college credits |  |  |

This course combines the trigonometric, geometric, and algebraic techniques needed to prepare students for the study of calculus. A key component of this course is to strengthen students' conceptual understanding and mathematical reasoning in solving complex problems. Topics covered in this course include the fundamental operations of algebra, graphs, equations, matrices, exponents, logarithms, basic trigonometric functions, trigonometric equations, right triangles, oblique triangles, vectors, complex numbers, conics, and graphs.
***** The Memorandum between Gillette College and Campbell County School District is renewed annually. Courses offered are subject to change at any time at the Gillette College discretion.

Course Name: Enriched Pre-Calculus

## Course Name: College Intermediate Algebra

| Course Number | 246331 | 246332 | NOTE: There is NOT college credit with this course. <br> Functions and their application to the real world, graphing of linear equations and inequalities, solving simple linear equations and inequalities, solving systems of linear equations, manipulation of polynomial expressions, manipulation of rational expressions, solving rational expressions, manipulating and solving equations which involve radical and rational exponents, use of variation to solve application problems, solve and graph quadratic equations, manipulate and solve equations involving logarithms and exponential behavior, and use unit analysis to assess the appropriate unit to be placed on the numerical solution to an application problem. |

| Prerequisite |  |

Preference: B- or higher in Enriched Pre-Calculus or equivalent with instructor recommendation.

AP Calculus AB is the fifth course in a five-year sequence of college preparatory mathematics. This course covers all content required for the AP Calculus $A B$ Exam, including optimization, limits, differential equations, exponential functions, the relationship between distance and velocity, piecewise functions, volumes of revolution, volumes by slicing, and the Fundamental Theorem of Calculus. AP exams will be given in early May. Students are strongly encouraged to take the AP exam. Successful performance on the test can lead to college credit depending on the score and the college or university of choice.

## Course Name: AP Calculus BC - Independent Study

| Course Number | 268531 | 268532 | This course covers all content required for the AP Calculus AB Exam, as well as Calculus II concepts including convergence tests, logistic equations, polar area, vectors, polar curves, polynomial approximations, and error. AP exams will be given in early May. Students are strongly encouraged to take the AP exam. Successful performance on the test can lead to college credit depending on the score and the college or university of choice. |  |  |

| Meets Hathaway <br> Success Curriculum | No |  |  |  |
| Prerequisite | Must be 15 years old |  |  |  |

May take this class more than once for elective credit
This course provides the skills to effectively prevent and respond to water emergencies, arming you with the skills and knowledge to respond to a variety of scenarios. You will learn how quick response time and effective preparation are vital to being a lifeguard while also understanding the crucial elements in helping to prevent drownings and injuries. With passing of the skills, final scenarios, and written test, you qualify for American Red Cross Lifeguarding certification with First Aid, CPR and AED training. Students will spend half their time in the classroom and the other half in the pool.

Taught at Aquatic Center
Students will need to provide their own transportation.

## Course Name: Water Safety Instructor

| Course Number | 3591 |  |  | May take this class more than once for elective credit <br> This course focuses on the skills needed to teach courses and make presentations to swimmers of every age and ability. You can help recreational swimmers meet their goals, refine their skills, and stay safe in, on, and around the water: water safety, emergency response protocols, hydrodynamics, basic aquatic skills, and aquatic fitness and training for people of any age. There will be a required fee to cover the cost of the American Red Cross book and certification. Students will spend half their time in the classroom and the other half in the pool. <br> Taught at Aquatic Center <br> Students will need to provide their own transportation. |

| Meets Hathaway <br> Success Curriculum | Biology II |  |  |
| Prerequisite | Successful completion of Biology I |  |  |

In Human Anatomy and Physiology, students pursue an understanding of the structure and function of the human body. In this class, students will study the human body on a chemical, cellular, tissue, organ, and organ system level. They will also pursue an understanding of the structure and function of the human body as it relates to personal interests and health. Students will reinforce their learning through hands-on laboratory and modeling experiences.

## Course Name: AP Biology

| Course Number | 144741 |  |  |
| :---: | :---: | :---: | :---: |
| Credit Type | Science |  |  |
| Grade Level |  | 11 | 12 |
| Credit | ½ credit per semester |  |  |
| Course Length | Year Long Course |  |  |
| Fee | Fee required for AP test |  |  |
| Course Level | Enriched |  |  |
| Meets Hathaway Success Curriculum | Biology II |  |  |
| Prerequisite | Successful completion of Biology I |  |  |

AP Biology is a fast paced, academically demanding course. Students cultivate their understanding through inquiry-based investigations as they explore the various biological topics: change overtime, cellular processes - energy and communication, genetics, information transfer, and ecology. AP exams will be given in early May. Students are strongly encouraged to take the AP Exam. Successful performance on the test can lead to college credit depending on the score and the college or university of choice.

## Physical Science Classes

Course Name: Physical Science

| Course Number | 113901 | 113902 | This course is a study of matter and energy and the relationship <br> between the two concepts. This course includes components of <br> basic chemistry and physics in order to best study and model the <br> concepts of matter and energy. This course is to serve as an <br> introduction to the high school sciences by providing students <br> with the skills necessary to prepare them for upper level science <br> classes. |
| :--- | :--- | :--- | :--- |
| Credit Type | Science | 9 | $1 / 2$ credit per semester |

Course Name: Chemistry I

| Course Number | 132501 |  | 132502 |  | Chemistry I is a yearlong science course structured around the <br> science of matter. This course explores the atomic nature of <br> matter, the periodic table, the nature of chemical bonds, <br> chemical reactions, the role of electrons in the formation of <br> chemical compounds, and the gas laws. Students will conduct <br> investigative experiments to gain insight into the properties and <br> behavior of matter. Modeling and application of science into <br> everyday concerns is also a focus of this class. |
| :--- | :--- | :--- | :--- | :--- | :--- |
| Grade Level | Science | 10 |  | 11 | 12 |

Course Name: Chemistry II

| Course Number | 133601 |  |  | The class is an excellent choice for students who enjoy chemistry and wish to further their study of matter and energy. This is an extension of Chemistry I designed with a strong emphasis on laboratory work and procedures. Students will explore advanced chemistry topics and reinforce general chemistry concepts. |
| :---: | :---: | :---: | :---: | :---: |
| Credit Type | Science |  |  |  |

| Meets Hathaway <br> Success Curriculum | Successful completion of <br> Chemistry I and Algebra <br> II |  |
| Prerequisite |  |  |

[^1]Course Name: Physics

| Course Number | 143601 |  |  | Physics is a demanding class that introduces students to the physical laws which govern the universe. The course is a hands-on science class; students participate in activities and demonstrations designed to help them understand how the laws of physics affect their lives. This course is math intensive. Students will develop an understanding of physics concepts and develop problem-solving skills through the completion of daily homework, classroom activities, unit exams, and formal lab reports. Two projects will be assigned each semester, which will require constructing various devices that demonstrate physical laws. |
| :---: | :---: | :---: | :---: | :---: |

# Earth and Space Science Classes 

## Course Name: Earth Science

| Course Number | 112901 |  |  | This course explores the nature and relationship between the Earth's internal systems and the effects that change to those systems have on the biosphere. General Earth Science includes learning about the Earth system and applying technology to monitor human impact and needs. This course delves into the nature of science and includes scientific modeling and inquiry opportunities through technology. |
| :---: | :---: | :---: | :---: | :---: |

| Fee | None |  |  |  |
| Course Level | General |  |  |  |
| Meets Hathaway Success Curriculum | Geology I |  |  |  |
| Prerequisite | None |  |  |  |

Course Name: Astronomy I

| Course Number | 153300 |  |  | Students will explore the origin and organization of the universe and the place of humans in it. Students will study various celestial components, the classification of galaxies, the life cycle of a star and classification of different types of stars. Students will learn the basic forces and types of energy sustaining the celestial bodies. Students will investigate methods of determining stellar distances, methods of identifying stellar composition, characteristics of light and the various types of matter that make up the universe. |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

## Social Studies Required Courses

## Course Name: World Cultures

| Course Number | 500901 | 500902 | World Cultures explores the physical and cultural geography of Australia/Oceania, Africa, the Middle East and Asia including China and Japan. The course examines historical issues that have impacted these geographic regions as well as current events. This course utilizes primary documents, research databases and hands on activities including culturally relevant games, artwork and research projects. |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |

AP (Advanced Placement) Human Geography is a year-long
course designed for the highly motivated, college-bound
students. This course challenges students in a college-level
setting to think geographically and explore historical themes.
Topics to be covered in the class include globalization,
colonialism, and human-environment relationships on places,
regions, cultural landscapes, and patterns of interaction and their
effects on modern human life. Such a rigorous course requires of
student's high academic skills, extensive vocabulary, the ability to
read and comprehend college-level text, as well as a willingness
to complete homework for up to an hour each night. At the end
of the year, students will have the opportunity to show their
knowledge on the AP Exam, whereupon passing students can
receive college credit.

Course Name: US History

| Course Number | 524501 | 524502 | All juniors must take this course or College US History to fulfill their graduation requirements. <br> This course is a one-year introduction to our nation's history. Topics include: reasons for the exploration of the New World, the colonization of the New World by European powers, pioneers building a future for future generations in the wilderness, the industrialization of America, westward expansion into the American West and beyond. Conflicts studied are the American Revolution, the Mexican-American War, the Civil War, the Spanish-American War, World War I and II, Korean Conflict, and the Vietnam War. <br> During this course we will see how our ancestors built a republic based upon democratic principles. There are numerous quizzes and tests, some essays and a lot of discussion as well as several films that help bring American History to life for you. |

| Prerequisite | HIST 1211-3 college <br> credits/HIST 1221-3 <br> college credits |
| Concurrent Enrollment |  |

This course will substitute for the American History requirement. College US History is designed to give students the opportunity to earn college credit while attending high school. Students can expect to cover the same topics as regular American History classes with more depth and great deal of homework, demanding a college level of study habits. If you are a student looking for a challenge or fascinated by history, this is a course for you.
$* * * * *$ The memorandum of understanding between Gillette College and Campbell County School District is renewed annually. Courses offered are subject to change at any time at the Gillette College discretion.

Course Name: Economics

| Course Number | 522410 |
| :--- | :--- |
| Credit Type | Social Studies |
| Grade Level | $1 / 2$ credit |
| Credit | Semester Course |
| Course Length | None |
| Fee | General |
| Course Level | Economic Systems and <br> Institutions |
| Meets Hathaway <br> Success Curriculum | None |
| Prerequisite |  |

All seniors must take this course or AP Macroeconomics to fulfill their graduation requirements.
Economics is concerned with the way individuals and nations choose to use scarce resources to satisfy their wants and needs. This course will help you understand how your spending affects what is produced in our nation as well as the world. Current economic conditions will be discusses through a variety of activities including playing an online simulation game about the stock market. Other investment tools will be discussed as well as other topics of interest to high school seniors including money, banking, debit cards, tax preparation, consumer legal issues, credit reports, and insurance. By taking this course you will gain a better understanding of our economy and you will be better able to function as a citizen, consumer, and worker.

Course Name: American Government

| Course Number | 523410 | All seniors must take this course or AP Government and Politics at <br> CCHS or College American $\&$ Wyoming Government at TBHS to <br> fulfill their graduation requirements. |
| :--- | :--- | :--- |
| Credit Type | Social Studies | 12 |

Course Name: AP Government and Politics
**This course is only taught at Campbell County High School**

| Course Number | 534600 | 534601 | AP Government and Politics provides a college-level, nonpartisan introduction to key political concepts, ideas, institutions, policies, interactions, roles, and behaviors that characterize the constitutional system and political culture of the United States. Students study U.S. foundational documents, Supreme Court decisions, and other texts and visuals to gain an understanding of the relationships and interactions among political institutions, processes, and behavior. They also engage in disciplinary practices that require them to read and interpret data, make comparisons and applications, and develop evidence-based arguments. In addition, they complete a political science research or applied civics project. Students are strongly encouraged to take the AP exam. Successful performance on a test can lead to college credit depending on the score and the college or university of choice. |

## Course Name: AP Macroeconomics

**This course is only taught at Thunder Basin High School**

| Course Number | 524400 |
| :--- | :--- |
| Credit Type | Social Studies |
| Grade Level | $1 / 2$ credit |
| Credit | Semester Course |
| Course Length | Fee required for AP test <br> and textbook |
| Fee | Enriched |
| Course Level | Economics Systems and <br> Institutions |
| Meets Hathaway <br> Success Curriculum | College US History |
| Prerequisite |  |

This course is a replacement for the Economics requirement. Advanced Placement Macroeconomics is intended to give students a detailed understanding of economic concepts that apply to the entire economic system as a whole. This course studies the quantitative performance measurements and core concepts of all economics systems. The content should put particular emphasis on the American Free Enterprise's domestic function as well as its role in international markets and the performance of the global economy. Students are strongly encouraged to take the AP exam. Successful performance on the test can lead to college credit depending on the score and the college or university of choice.

# Social Studies Elective Courses 

## Course Name: Psychology

| Course Number | 560310 |  |  | Psychology is the study of the mind and human behavior. As young people approach adulthood they become increasingly interested in understanding their own behavior and learning how it relates to the behavior of others. This course will be a broad overview including the seven contemporary approaches to psychological disorder, learning, and memory. |
| :---: | :---: | :---: | :---: | :---: |

| Prerequisite | None |  |  |

Justice is a look at the criminal justice and law enforcement systems. This class will be a great fit for any student, but especially if they are considering a career in the legal or law enforcement area. Students will learn the foundations of crime solving, law enforcement, and our current legal system through the study of historic criminal cases. Students will be expected to complete projects and research, take notes, examine evidence, solve mock crime scenes, and provide motives and alibi possibilities. In addition, students will have presentations from local law enforcement each week to explore all areas of the field. The Justice curriculum meets academic standards, but is also designed to be engaging and intriguing.

#### Abstract

Ag Fabrication B emphasizes fundamentals in surveying, block laying, painting, and welding. A majority of the time is spent in shop refining technical skills and building projects which are student and teacher selected. Students will be working with torches, arc welders, ig welders and larger power tools and equipment. Students will research and present a topic on a controversial issue as well as design a sales brochure for a product or service that the student selects.

Content: welding, surveying, block laying basics, research paper on controversial issues, sales and service brochure, painting, and project layout and construction

Students are required to furnish their own coveralls/welding jacket for shop

Small Animal Production and Care is a beginner course in animal science for students interested in learning more about becoming a veterinarian, vet tech, vet assistant, or pursuing a variety of scientific, health, or agriculture professions. This course covers anatomy and physiological systems of different groups of small animals, as well as careers, leadership, and history of the industry. Upon completion of this course, proficient students will be prepared for more advanced coursework in veterinary and animal science. Working with live animals is a component and students will have to sign a waiver and complete a safety exam to participate in the course.
**Not recommended for Freshman. Freshman should enroll in Agriculture Science I prior to enrollment.

## Course Name: Veterinary Science

| Course Number | 764600 |  |  | Whether you want to step into the wild side of veterinary medicine or just take care of the furry dogs and cats down your street, Veterinary Science will show you how to care for domestic and farm animals and diagnose their common diseases and ailments. Learn different veterinary treatments such as sutures and bandaging. Discover how these treatments are used and developed to improve the lives of animals. If you have always been drawn to the world of our furry, scaly, and feathered friends, this is the course for you. Working with live animals is a component and students will have to sign a waiver and complete a safety exam to participate in the course. <br> **Not recommended for Freshman. |

## Course Name: Drawing I

| Course Number <br> Credit Type | 643400 |  |  |  | Have you ever wanted to learn to draw really well? This class will take you through all the steps from looking for basic shapes, proportion, and perspective to value in shading your compositions. You will get to use a variety of media: pencils, colored pencils, crayons, ink, pens, and chalk pastels on a variety of surfaces using many different techniques. Drawing from life, drawing from imagination, and figure drawing will be covered. This course is strongly recommended as a basis for all art classes and is a prerequisite for Drawing II. |  |  |

| Fee | General |  |  |  |
| Course Level | Fine Arts |  |  |  |
| Meets Hathaway <br> Success Curriculum |  |  |  |  |
| Prerequisite | None |  |  |  |

Printmaking is an ancient art form which in the $20^{\text {th }}$ century emerged as a major medium of visual expression. Each of the various printmaking methods presents its own unique possibilities for graphic expression. This course explores the aesthetic of multiple originals of a design. Basic exercises will be presented in several printmaking techniques in conjunction with problems in drawing and design. The latter part of the course will emphasize creative image making and the application of techniques learned to the production of those images.

Course Name: Painting I

| Course Number | 642400 |  |  |  | What fun you will have creating in color! You will learn how to mix colors for intensity and value in a variety of media. By exploring basic techniques of painting from art history and trying these techniques from impressionism to realism, from glazing to wet-in-wet techniques, it will lead you to develop your own technique and style. By working from your own references and from life, this will develop your eye to see composition and to create great original paintings! |

## Course Name: Graphic Design I

| Course Number | 663300 |  |  |  | Graphic Design is a broad field. A common thread in Graphic Design is the idea of the image as a message. This course explores the use of images to convey messages, typography, presenting problems in logo design, poster design, illustration, and assorted advertising designs. This class is set up using high technological computer graphics, Adobe Photoshop, Illustrator, and the traditional pencil and paper. With creative and problem solving students will experience a true-to-life working experience in the field of art. In using graphics, emphasis will be placed on creativity using many mixed mediums, layout design and composition. The student will be expected to do some investigation into the wide range of commercial art related careers. |

| Credit | Semester Course-Fall |  |
| Course Length | None |  |
| Fee | General |  |
| Course Level | CTE |  |
| Meets Hathaway <br> Success Curriculum | Successful completion of <br> Baking \& Pastry and <br> Global Culinary Cuisine |  |
| Prerequisite | CULA 1505 Sanitation <br> (Fall) - 1 college credit |  |
| Concurrent Enrollment |  |  |

If you are interested in the restaurant business, Professional Foods I class is for you. We study both the cooking side of the restaurant and the business side, using the Foundations of Restaurant Management and Culinary Arts curriculum. Advanced cooking techniques, knife skills, breakfast foods, sandwiches and drinks, cost control, purchasing and inventory, and commercial kitchen equipment will be used as we study and learn about production kitchens. Serving guests, marketing your projects, understanding standardized recipes and running a small business will be included in our Camel Café/Basin Bistro unit as we make and serve food to others. Serve Safe Certificate is an option - 1 college credit available.
***** The Memorandum between Gillette College and Campbell County School District is renewed annually. Courses offered are subject to change at any time at the Gillette College discretion.

## Course Name: Steel Drums Ensemble

**This class is only taught at Campbell County High School**

| Course Number | 612711 |  |  | May take this class more than once for elective credit <br> This class is designed for the beginning student who wishes to learn how to play instruments in a steel drums ensemble. Steel drums, or Steel "pans' are a relatively new instrument that originated in the tiny island nation of Trinidad and Tobago. The class will spend time on scales, etudes, history of the instrument, solo and ensemble literature, and appropriate level music written for the steel drum ensemble. Drum set players wishing to play in this group should have a minimum of 2 years drum set playing experience, and be willing to learn a new style of drum set playing. The steel drum ensemble will perform at various concerts throughout the year, and these concerts/masterclasses/rehearsals are a required part of participation in the class. Occasional after school rehearsals/ sectionals/ performances are required. Students will be required to purchase a set of steel drum mallets for approx. \$20 which they will use throughout the course of the semester. |

Course Name: Chamber Orchestra

| Course Number | 613511 | 613512 |  | May take this class more than once for elective credit <br> Chamber Orchestra provides students with an advanced music performance opportunity and expereince utilizing the widest possible variety of music and musical styles available. We will spend time on technical skills, exercises, etudes, solo and ensemble literature, and appropriate level orchestra literature. As a member of the Chamber Orchestra, students will have opportunities to perform outside of school hours, audition/participate in All-State, All-Northwest ensembles, and regional solo/ensemble festivals. Occasional after school rehearsals/sectionals/performances will be required. |

| styles from Bach to Rock. Students will continue their ability to |  |  |  |
| read music, play chords, play rhythm, play lead, alternate tuning of |  |  |  |
| a guitar, and read tab. Only acoustic guitars will be used during this |  |  |  |
| class. |  |  |  |

## Course Name: Music History

| Course Number | 614320 |  |  |  | Music History offers the college bound music major student the opportunity to continue their music history knowledge at a challenging level. The student must be willing to learn and participate in all "in and out of class" activities. This performing arts class is dedicated to the advancement of the student's knowledge of music history including research of composers, musical composition knowledge of the evolution from the medieval time period to current day, musical abilities through group and individual participation in, listening, interpretation, and class sharing. Interested students are reminded that this is a college prep level course and will be taught with consideration for the college-bound student and their preparation for college music requirements. Attendance at concerts outside of the school day may be required. |

| Meets Hathaway <br> Success Curriculum | Performing Arts |  |  |  |
| Prerequisite | None |  |  |  | Music Theory offers the college bound music major student the

opportunity to continue their music history knowledge at a
challenging level. Members of this class will study music of
various styles. The student must be willing to learn and
participate in all "in and out of class" activities. This performing
arts class is dedicated to the advancement of the student's
knowledge of music theory through group and individual
participation in singing, listening, sight reading, diction,
interpretation, theory, and class sharing. Interested students are
reminded that this is a college prep level course and will be
taught with consideration for the college-bound student and their
preparation for college music requirements. Attendance at
concerts outside of the school day may be required.

Course Name: Acting I

| Course Number | 688300 |  |  |  | Acting I is the introduction to the world of theatre by participating as both actor and audience. Students will learn basic acting methods, including motivation, tactics, and memorization techniques. Throughout the semester, students will act in various small performances, which include open scenes, monologues, and two-person scenes. In class, work is fast-paced and will be provided through concentration techniques, improvisation, theatre games, script reading, demonstrations, audio-visual material, and role-playing. Some out-of-class time will be required where students may have the opportunity to perform for larger audiences. Students will also have the opportunity to see live performances and learn the techniques of critiquing a stage production. Throughout the semester, the drama department may take trips to community shows, colleges, and professional productions. By the end of the semester, students must attend at least one live theatrical performance to apply the skills learned in class as a critical audience member. <br> Out-of-class time is required for this course. |

## Course Name: Theatre Practicum

| Course Number | 689600 |  |  | May take this class more than once for elective credit <br> Theatre Practicum is geared toward preparing various acting and technical entries for the competition level. During the first part of the semester, students will go through a variety of workshops that may include scene design, script writing, lighting design, make-up design, costume design, marketing design, sound design, stage management, make-up application, monologue preparations, duet preparation, and scholarship auditions. After the workshops, students will create a contract outlining what projects will be completed for Wyoming State Thespian Festival. All students will go to the competition and learn from the critiques of college professors and professionals in theatre. In order to be eligible for competition, students must maintain Cs or above in all classes. <br> Out of class time is required for this course. |

## Course Name: Theatre Tech

| Course Number | 689700 |  |  | May take this class more than once for elective credit <br> Theatre Tech is designed to give students real-world application of technical theatre. Students will study and participate in the use of scenic design, lighting design, and sound design. Students will also learn the practical application of theatre by creating scenery through stagecraft, and by manipulating lighting and sound equipment for actual productions. Students will assist with live productions. <br> Out of class time is required for this course. |  |

## Technical Education

## Course Name: Computer Aided Drafting and Design (CADD)

| Course Number | 860301 |  |  | Computer Aided Drafting \& Design will provide the student with the basic introduction to the knowledge and skills needed for future potential Computer Aided Drafting \& Design work. You will be exposed to areas of the Drafting and Design world such as print reading, measuring, layout, and dimensioning standards. Areas of the class might also include Computer Aided Drafting \& Design applicable areas such as electronics, civil or mechanical engineering, architecture, GIS, or manufacturing. This is the introductory level course that will expose you to the basic elements of using a Computer Aided Drafting \& Design, both 2D and 3D. This class will cover basic drawing types such as isometric, orthographic, and architectural layout and design while using the Computer Aided Drafting \& Design system and basic sketching techniques. <br> The Memorandum between Gillette College and Campbell County School District is renewed annually. Courses offered are subject to change at any time at the Gillette College discretion. |  |

| Concurrent Enrollment | ENTK 2525 - Parametric <br> Modeling - 1 college <br> credit |  |  |  |

Introduction to Engineering Design emphasizes the development of a "design." Students will learn and apply an engineering design process and see how it is used in industry to manufacture a product. As a part of the engineering design process, computer modeling software will be used to produce, analyze and evaluate models of project solutions. Design concepts of form and function will be studied and state-of-the-art technology will be used to translate conceptual design to reproducible products. First semester topics include the engineering design process, sketching, viewing types of engineering drawings, dimensioning standards and conventions, precision measuring, career exploration and software instruction. Second semester topics include the engineering design process, auxiliary and section views, prototype creation software instruction and practice, product testing, analysis and marketing.
***** The Memorandum between Gillette College and Campbell County School District is renewed annually. Courses offered are subject to change at any time at the Gillette College discretion.

Course Name: Engineering Design and Development (EDD)

| Course Number | 806951 | 806952 | Engineering Design and Development (EDD) is the capstone course for the Engineering Pathway and the PLTW high school engineering program. It is an engineering research course in which students work in teams to design and develop an original solution to a valid open-ended technical problem by applying the engineering design process. The course applies and concurrently develops secondary level knowledge and skills in mathematics, science, and technology. <br> The Engineering Design and Development course of study includes: the design process, intellectual property, teamwork, project management, design specifications, concept testing, design proposal, virtual solutions, building a prototype, testing a prototype, documentation, presenting the process and results, researching problem identification, validation, justification, and test evaluation and refinement |
| :---: | :---: | :---: | :---: |

Course Name: Principles of Engineering (POE)

| Course Number | 815901 | 815902 |  | Principles of Engineering (POE), is a PLTW course. This survey course introduces students to the basics of the engineering fields. Topics include mechanisms and simple machines, energy sources, statics (the study of objects at rest like trusses and bridges), material properties, robotics, statistics and kinematics (the study of objects in motion like projectiles and self-propelled vehicles). They develop problem solving skills and apply their knowledge of research and design to create solutions to various challenges, document their work and communicate solutions. Several field trips and guest speakers will supplement the course. <br> Recommended that Algebra I be completed prior to enrollment. <br> Students with an interest in engineering and independent and strong math skills are helpful. |

| Prerequisite | None |  |  |  |  |

Course Name: Welding II

| Course Number | 871411 | 871412 |  | Students will learn and practice basic arc welding SMAW, including electrode selections and proper usage, joint design and oxyfuel cutting techniques. Welding will be done on stock up to $3 / 8^{\prime \prime}$ in all positions. Cutting will be done on steel up to $1 / 4$ " and $3 / 8^{\prime \prime}$ with hand and machine torches, power shear, and power saws. Instruction emphasizes safety and care of hand and power tools used in a welding shop. <br> Students are responsible for providing their own safety clothing. |  |  |

Course Name: CS-Web Page Design I

| Course Number | 713550 |  |  |  |
| :--- | :--- | :--- | :--- | :--- |
| Credit Type | Elective |  |  |  |
| Grade Level | 9 |  |  | 10 |

Web Page Design courses teach students how to design websites by introducing them to and refining their knowledge of site planning, page layout, graphic design, and the use of markup languages - such as Extensible Hypertext Markup, JavaScript, Dynamic HTML, Document Object Model, and Cascading Style Sheets - to develop and maintain a web page. These courses may also cover security and privacy issues, copyright infringement, trademarks, and other legal issues relating to the use of the Internet. Advanced topics may include the use of forms and scripts for database

Course Name: CS-Web Page Design II

| Course Number | 713560 |  |  |  | In Coding II Web Design, you will expand your knowledge in HTML and learn more languages such as JavaScript, DHTML and cascading style sheet. All of these programming languages will be applied to creating a much more detailed and advanced web page. Students will also work on designs and develop computational artifacts while working in teams and using collaborative tools. Professional Web Design would be an excellent follow-up for those successful in completing Coding II Web Design. |

Course Name: CS-Computer Science Principles (CSP)

| Course Number | 713581 |  |  | Computer Science Principles will open doors in any career with computer science! Students create apps for mobile devices, automate tasks in a variety of languages, find patterns in data, and interpret simulations. Students collaborate to create and present solutions that can improve people's lives. Students will work with applications and languages that include but are not limited to SCRUM/Agile, Scratch, App Inventory, Python, DOS/UNIX, HTML 5, CSS, Javascript, PHP, MySql, and NetLOGO. Students will have the opportunity use programming, computational thinking, and data analytics to create digital artifacts and documents representing design and analysis in areas including the Internet, algorithms, and the impact that these have on science, business, and society. |

[^5]The primary goals of the World Language Department are to enable students to use the target language in authentic real-life situations and to develop skills in the three modes of communication: Interpersonal (spontaneous two-way communication with the opportunity for negotiation), Interpretive (culturally appropriate interpretation of written or spoken samples in the target language with no opportunity for negotiation to take place, students must infer meaning), and Presentational (communication that occurs from one to many with time for feedback and polishing of final product). The teaching and implementation of the three modes are in unison with our state and national standards. Our World Language Department is aligned with the Wyoming State Foreign Language standards as well as the national standards developed by the American Council on the Teaching of Foreign Languages. Hathaway Scholarship Requirements for the Provisional and Opportunity Level require 2 Years of World Language, CTE, or FPA (WL classes must be sequenced) and for the Performance and Honors Level it requires 4 Years of WL, CTE, or FPA (2 of the 4 years must be a sequenced pathway). Additionally, more and more colleges and universities are requiring a solid language foundation. Thus, it is recommended that college-bound students achieve the proficiency level of Intermediate-low (end of level II).

The target expectation of proficiency ability and performance that students will have at the end of the year are generally as follows: (Please see chart below for explanation/descriptors for each level)
Level I: Novice-High Level III: Intermediate-Mid
Level II: Intermediate-Low
Level IV: Intermediate High to Advanced

## Language Proficiency Levels and Descriptors

| Novice Level | Communicator is limited to using memorized vocabulary in highly predictable/practiced situations. |
| :---: | :--- |
| Novice-Low Level | Students have no real functional ability and because of their pronunciation, may be unintelligible. Given <br> adequate time and familiar cues, they may be able to exchange greetings, give their identity, and name a <br> number of familiar objects from their immediate environment. |
| Novice-Mid Level | Students communicate minimally using memorized words and phrases to talk about familiar topics <br> related to school, home, and the community. |
| Novice-High Level | Students communicate using words, lists, and simple sentences to ask and answer questions, discuss <br> interdisciplinary topics studied, and handle simple transactions related to everyday life. |
| Intermediate Level | Communicator is able to create with the language for basic survival needs: asking and answering simple <br> questions, and dealing with situations or transactions. |
| Intermediate-Low Level | Students communicate using simple sentences to ask and answer questions, discuss inter-disciplinary <br> topics studied, and handle uncomplicated transactions related to everyday life. |
| Intermediate-Mid Level | Students communicate using strings of sentences to ask and answer questions, discuss inter-disciplinary <br> topics studied, and handle slightly complicated transactions related to everyday life. |
| Intermediate-High Level | Students communicate using connected sentences and paragraphs to handle complicated situations on a <br> wide-range of topics. |
| Advanced Level | Communicator can narrate and describe across time frames with increasing accuracy, engaging in more <br> sophisticated interactions. |
| Advanced-Low Level | Students communicate using paragraph-level discourse to handle complicated situations on a wide-range <br> of topics. |

In this course students will learn to communicate in German at a Novice-High level. Instruction is based on the five national standards for language learning: communication, cultures, connections, communities and comparisons. These standards determine what the students should know and be able to do in the language of study. Students will be exposed to the German language and culture through various resources. The students will be immersed in the German Language except when brief explanations in English are needed. There will be special days in which students participate in cultural activities such as cooking, and the creative arts, including music, art, dance, poetry, storytelling, and drama. Activities will be planned to celebrate various holidays, which are presented from a cultural point of view.

## Course Name: German II

| Course Number | 601401 |  |  | In this course students will communicate in German at an Intermediate-Low level. Instruction is based on the five standards for language learning, which include: communication, cultures, connections, communities and comparisons. These standards determine what the students should know and be able to do in the language of study. Students will be exposed to German language and culture through various authentic resources. This class will be conducted in German except when explanations in English are needed such as the teaching of grammar functions etc. There will be special days in which students participate in cultural activities such as cooking, and the creative arts, including music, art, dance, poetry, storytelling, and drama. Activities will be planned to celebrate various holidays, which are presented from a cultural point of view. |

#### Abstract

In this course students will expand and develop their communication proficiency in Spanish at an Intermediate-High level and up to Advanced level for heritage/native speakers. Instruction is based on the five national standards for language learning: communication, cultures, connections, communities and comparisons. These standards determine what the students should know and be able to do in the language of study. Students will be exposed to the Spanish language and culture through various authentic resources. This class will be conducted entirely in Spanish, and is designed to be student-centered, communicative, and proficiency based. Learning opportunities will include a wide variety of literature, authentic language in context, and cultural perspectives. It encourages students to connect their learning to the community in which they live and helps them see the relationship between language, community, and career. Students in Spanish IV can earn 4 college credits. (Must be enrolled in class both semesters to receive this college credit through Gillette College) Spanish 1020. **The Memorandum between Gillette College and Campbell County School District is renewed annually. Courses offered are subject to change at any time at the discretion of Gillette College and are dependent on teacher availability.

Students may choose to take Spanish IV or AP Spanish after successfully completing Spanish III. Interested students should talk to their Spanish III teacher for recommendations for proper placement.

## Course Name: AP Spanish Language and Culture

| Course Number | 615731 | 615732 | AP Spanish Language is intended for advanced students who wish to develop proficiency and integrate their language skills, using authentic materials and sources. Students who enroll should already have a strong foundation of the language and cultures of Spanish-speaking peoples and should have attained a reasonable proficiency level in using the language. This AP Spanish Language Course will help students prepare to demonstrate their level of Spanish proficiency across three communicative modes (Interpersonal which is interactive communication, Interpretive which is receptive communication and Presentational which is productive communication, and the five goal areas outlined in the Standards for Foreign Language Learning in the $21^{\text {st }}$ Century: Communication, Cultures, Connections, Comparisons, and Communities). This course is meant to be comparable to college and university courses that focus on speaking, reading, listening and writing in the target language at an advanced level. Students who take this class must be dedicated and highly motivated to meet the challenge and rigorous standards of this course. The class will be conducted exclusively in Spanish and students will be expected to use the target language at all times. AP Exams are given in early May. Students may choose to take Spanish IV or AP Spanish after successfully completing Spanish III. Interested students should talk to their Spanish III teacher for recommendations for proper placement. |

## Course Name: AP Spanish Literature and Culture

## Additional Elective Courses

Course Name: ACT Prep

| Course Number | 700901 | 700902 |  | This class is designed to provide skills and strategies for taking the ACT. Students will work with programs that support tested areas on the ACT. These programs will incorporate practice questions that help identify skills for students to work on in order to improve knowledge and skills for the ACT. |

Make College A Reality
The state of Wyoming provides Hathaway Merit and Need-Based Scholarships to all eligible Wyoming students attending the University of Wyoming or Wyoming community colleges.

[^0]:    * Students who earn an associate's degree can extend for an additional 4 full-time semesters at UW.
    ** All AP, IB and dual/concurrent courses (+1000 level and above) will be weighted.
    *** Two of the four years must be sequenced. Sequenced courses follow the same CTE career cluster OR CTE program of study.

[^1]:    AP Chemistry is a fast paced, academically demanding course. AP exams will be given in early May. Students are strongly encouraged to take the AP exam. Successful performance on the test can lead to college credit depending on the score and the college or university of choice. The course curriculum is established by the Advanced Placement Program of the College Board. This course is much more demanding and complex than Chemistry I and II but the content learned will increase student success in college chemistry. Students interested in engineering and health fields may want to consider this class.

[^2]:    ~NCAA approved - Social Science

[^3]:    Ag Business emphasizes the fundamentals of farm and ranch management. Computers will be used substantially throughout the semester when developing financial spreadsheets, record keeping practices and researching current agriculture market reports. Career exploration, self-employment opportunities and business structures will also be researched. Students will be required to keep a notebook of classroom units to use as a reference for future classes and they may enter this notebook at the county and state fairs. Students will be encouraged to participate in FFA activities through the semester.

    Content: net worth statements, income statements, careers in ag, credit scores, budgeting, profit and loss, cash flow, planning livestock facilities, financing, record keeping, and FFA activities and participation

[^4]:    Welding III emphasizes specialized classroom and shop experiences, concerned with the use of both GMAW, SMAW, FEAW, and GTAW welding processes to weld metal parts. Special emphasis will be placed on safety of both equipment and personnel. This course is a continuation of Welding I. The purpose of this course is to develop in-depth welding skills for those students wishing to enter employment on a useful and productive basis. Welding will be practiced on stock up to $1^{\prime \prime}$ in horizontal, vertical and overhead positions. Air Carbon Arc Cutting and Plasma Gouging emphasized. This course is concurrently offered for college credit. The laboratory manual from the college course will be utilized throughout the course. Sophomores must obtain instructor approval to enroll in Welding II.
    ***** The Memorandum between Gillette College and Campbell County School District is renewed annually. Courses offered are subject to change at any time at the Gillette College discretion.

    Students are responsible for providing their own safety clothing.

[^5]:    ~NCAA approved - Additional Core Courses
